

Chester H. Rowell

35 KILLED IN MINE BATTLE

CRITICISING THE UNIVERSITY—
The flapper having pretty well run out as a subject to enliven the dull season, the university seems to have taken her place. The complaints, to be sure, just because there are complaints, are not consistent. One critic berates the university regents because they are mostly rich men and will therefore not permit free expression of modern social and economic views.

Another takes the contrary tack and warns high school graduates against the parlor bolshevism which the university authorities wickedly permit to be taught.

Doubtless both groups of critics would be horrified if they knew that the regents have been for twenty-two years under formal contract with Presidents Wheeler and Barrows not to interfere in such matters. The complaint would be even sharper if they did not interfere. So the regents need not hope to get it right, either way.

A MORE serious matter is the growing disposition to question the university itself. This, too, comes from contradictory sources. Two years ago it was from the Democrats, who wanted the university to do more things—more popularly. Now it is from the aristocrats, who want it to do fewer things—more conservatively. The dirt farmers wanted it to teach more dirt farming, on the dirt, away from the contaminations of irrelevant culture. Now comes the chief exponent of delicate sensibility and objects to teaching farming at all. The purpose of the university is to equip the elect with the grace and dignity of higher culture. It has let in too many people, some of whom come for other purposes than culture, and too many subjects, some of which have the misfortune to be useful.

THOSE whose chief knowledge of the university is derived from fantastic distortions of certain newspapers are scarcely to be blamed if their notion of what it is like contains more jazz than truth. They know the university much as Europeans know America from Wild West movies. But if there are people who should be reminded that the expansion of the university's functions has all come in response to popular demand from without. The modern university teaches more things than the old colleges did because the people want these things and modern youth and a doubled tenure of life require it. If such are people, these make good front page stuff, they are a negligible insignificant part of the actual life of the university.

The university is not perfect and it has many problems. Its most anxious critics are among its own responsible authorities. If others can offer constructive criticisms, based on knowledge and on a matured conception of what the university is for, they will be rendering valuable service. Unfortunately, most of the actual complaints have not been of this sort.

BUYING YOUTH—It is indeed true that Harold McCormick has hired a poor man to sacrifice his youth in order that McCormick may renew his, let us hope that the operation is a failure.

In fact, let us hope that no way will ever be found to abolish or long postpone old age, whether it involves sacrificing one man to another or not. If such an operation could be made general and cheap there would be no chance for the younger generation. The older would refuse to vacate. Or if, instead, the operation remained rare and expensive, so that the postponement of age would be the special privilege of the very rich—that is exactly the privilege which wealth must not buy. It would be both economically and socially disrupting—economically because, after a certain amount, a rich man needs only to stay alive to get inordinately rich, and socially because permanent youth and a doubled tenure of life is precisely the last thing which common men, without revolution, would permit one man to buy at the expense of another.

THE WET CRUSADE—According to the Literary Digest's collation of newspaper discussion, the struggle of the wets for a "modification of the Volstead act" is to overshadow all other considerations in the election.
So long as it is confined to the congressional elections, that is at least the right place. But the crusaders should realize the limitation of the powers of congress. Congress may "modify the Volstead act" in any respect, except to authorize or sanction what the Constitution prohibits—which is intoxicating liquors, including beer and wine. The only "modification" which could permit these would be a modification of the amendment itself. An effort to get this modification in any other way is simply wasted energy.

Even if a wet majority were elected, the members would be bound by their oath of office to support the Constitution of the United States, including the Eighteenth amendment. It is impossible to support a Constitution by wet votes. And even if Congressmen did not regard their oath, the Supreme Court will. It has already decided that any law authorizing or sanctioning the sale of intoxicating liquor is unconstitutional. It has not decided that congress may, by definition, determine how much alcohol it takes to make a drink legally intoxicating. That off-quoted decision is a fact, invented by street rumor. There is no such decision. So the whole crusade is headed in the wrong direction. The only way to legalize wine and beer is to modify the Eighteenth amendment.

British Field Marshal is Slain

IRISH ARE HELD FOR MURDER

Assassins Captured After Shooting Victim in Front of Home
SIR HENRY WILSON VICTIM OF KILLERS
British Fear Widespread Plot to Kill Off Republican Army Foes

LONDON, June 22.—Two soldiers of the Irish Republican army today shot to death Field Marshal Sir Henry Wilson in front of his residence at Eaton Square here.

The assassins were captured after they had put up a running fight and shot three policemen and a civilian. One attempted suicide following his arrest.

Wilson's murder was believed to be part of a widespread plot to assassinate opponents of the Irish Republican party and guards were redoubled in White Hall and at Lloyd George's residence in Downing street.

Reprisals against Catholics in Belfast as a result of the murder of Sir Henry, who was leader of the Ulster defense are feared.

Scotland Yard announced the names of Wilson's assailants as James O'Brien and James Connolly. Both gave their ages as 24.

After shooting Sir Henry, the two assassins ran through the streets, pursued by police, who constantly guard Eaton Square, where many of the most prominent in England have their London homes.

Stage Running Duel

Shots were fired after them down the narrow streets, through which they fled past houses of titled personages and cabinet ministers, who were within earshot when Wilson was killed.

The murderers turned and fired at their pursuers, keeping up a running gun fight for three-quarters of a mile.

A policeman, giving chase, was dropped by a bullet from an assassin's pistol. A civilian, unable to escape the hail of fire, was wounded.

An eye-witness to the tragedy told the United Press the following story of the shooting:

"I was in the neighborhood of Eaton Square and heard shots ring out. I looked in time to see two armed men pumping bullets from their revolvers into the body of Sir Henry. When I reached him, his head, legs and chest were literally riddled with bullets."

American Aids Capture
An official of the American Relief administration assisted in the capture of the murderers.

Describing the attack to the United Press, this official said: "Sir Henry was alighting from an automobile in front of his home in Eaton Square. The assassins were on the sidewalk, waiting for him. They seized him and shot him dead. The murderers then walked into the center of the street and began to make their getaway. They waved revolvers and a policeman who attempted to arrest them."

(Continued on Page Two)

Dry Advocate Ready to Give His Good Eye to Defeat English Wets

NEW YORK, June 22.—"I'd give my other eye to make England dry. It would be well worth it."
"Pussyfoot" Johnson, rum's arch enemy, made this assertion today in an interview with the United Press as he sailed on the Cunard steamer Sythia.

When informed London was awaiting his arrival and planned to greet him with stoness, over-ripe tomatoes and aged eggs, the prohibition battler chuckled.

"Say, that's great. Let 'em come. I can fight."

"And tell them England will be dry in 1935, if not sooner."

HUGE SAVING IS SHOWN IN STATE FUNDS

Governor's Economy Program For Supplying State's Needs Saves \$425,000, Report.

SACRAMENTO, June 22.—The economy program directed by Governor William D. Stephens in the purchase of supplies for California governmental departments and institutions has resulted in an estimated saving to the state of \$425,000 for the fiscal year 1921-1922, it was announced today by Edgerton Shore, chief of the division of purchases and custody.

In a report to the governor, Shore said the saving was made possible through the operation of a central purchasing agency which attends in detail to practically all state buying. By utilizing the \$200,000 revolving fund allocated to the department by the legislature, he said, the state purchasing agent is able to secure large amounts of materials at figures appreciably below accepted market prices. It was announced approximately \$135,000 of the revolving fund is now in use.

Commenting on the report to the governor, State Purchasing Agent W. G. McMullen said that, in proportion to the amount of materials purchased, the annual report will show an appreciable increase in savings over the last fiscal year. This he attributed to the evenness of the market.

500 ON STRIKE IN S. F. SHIP WAGE CLASH

(United Press Leased Wire)
SAN FRANCISCO, June 22.—Five hundred union employees of the Bethlehem Ship Building corporation's San Francisco yards went on strike today, M. J. McGuire, business agent of the union announced.

The streets were cleared in the vicinity of the plant where numerous men were gathering.

McGuire said the men walked out because they were being paid \$5.25 per day, against \$6.25 which, he said, other operators were paying.

Those affected were boilermakers, caulkers, chippers and riveters.

MOTOR SHIP BURNS.

SAN FRANCISCO, June 22.—The Danish motor ship Siam, which recently arrived in England from San Francisco, burned yesterday at Hull, England, according to private cablegram received here. The ship and cargo were severely damaged.

ASK IN JUNCTION AS MILLER OIL SYNDICATE IN COURT CLASH

Internal upheaval loomed today in the affairs of the Miller syndicate, reported to be on the eve of dissolution, as Thomas E. Taylor, one of the unit holders of the concern, filed suit in the superior court to see that court supervision attend the breaking up process.

Charging that the trustees of the syndicate, which has been handling oil properties in the Huntington Beach field, are proposing an unequal distribution of the syndicate's funds and assets, Taylor asked for a restraining order and for a mandatory injunction, compelling the defendant trustees to pro rate the assets, according to the interests owned by each unit holder.

Appears as Plaintiff.

Taylor appeared as plaintiff on behalf of himself "and all other unit holders, except the defendants." The defendants are the trustees, John Z. Tracy, F. C. Krause, R. W. Edens, L. P. Drake, G. W. Finch, G. W. Blatner, Henry Schaffert, Joe Burke and H. H. Quire.

The Miller syndicate is said to be an unincorporated trust estate, organized June 25, 1921, with 4,000 units priced at \$100 per unit. Taylor asserts that 2500 units were sold, four being held by himself.

Electing to terminate the existence of the estate, the trustees, he charges, now threaten to violate alleged provisions of the declaration of trust under which the syndicate was formed, namely, to distribute assets in proportion to unit interests.

Offer \$40, Claim.

They have offered Taylor and divers other unit holders, he alleges, no more than \$40 per unit, whereas, he claims, they propose to give other unit holders the full face amount of their units.

Taylor is represented by Attorney W. M. Brown, of Los Angeles, formerly city attorney of Orange.

FIRE THREATENS RICH PASADENA HOME SECTION

PASADENA, June 22.—Fire that threatened the palatial residences in the vicinity of the Annandale Country club, in which over ten acres of heavy brush was burned over, was controlled shortly after noon today by nearly a half hundred Pasadena fire and water department workers. No damage, other than that to ornamental trees, was reported.

WHISKER KING'S SECRET OF HOW BEARD BEGAN BARED HERE

The same curiosity which killed the fabulous cat grew 17½ feet of whiskers for Hans L. Langseth, of Barney, S. D., King Whiskerino of the United States, who is visiting at the home of A. H. Bjorga, 1905 Valencia street.

When he was a young man, it was Langseth's custom to shave in the summer, and let the facial decorations grow unhampered during the colder months of the year. The rapidity with which they increased was astounding, Langseth said today, causing him to wonder how long they would grow if left untouched by a barber's shears or razor.

That was 47 years ago. Today, although he possesses the longest beard in the United States, Langseth's curiosity remains unsatisfied, for every year adds a few inches to the appendage.

Achieves Fame At Capital
Langseth gained fame at the recent Days of '49 celebration at Sacramento, where he was crowned king of all the bewhiskered multitude which thronged the city. He was photographed, interviewed and exploited, until his name and claim to fame are known throughout the entire country.

He will remain several days at the Bjorga home. Bjorga was postmaster in an Iowa town for ten years, and it was here that he and Langseth became acquainted.

"The foolish questions which are asked me are more trouble than the beard," responded the king, in reply to such an interrogation from the reporter. "I believe that I have answered more idiotic inquiries than any man in the country."

Where Does It Start?

"I am asked where the beard starts. It is frequently supposed that it originates in my neck. Then I have to show my questioners that it begins as all decorous beards should begin, on my chin."

The beard, by the way, is of curious formation. Shorter whiskers, about a foot long, drape themselves from the wearer's cheeks and upper lip. These are snow white, as is his hair. Beneath these, in two long, matted strands, is the famed 27-foot beard. This is of darker color, and has not been combed since 1913.

"I am asked what sort of hair tonic I use. I have been offered inducements to allow my name and fame to be used as advertising for various products. To this question I reply that plain water is the only tonic which my whiskers have received."

Fear For His Strength
Many of those interested have fear for the king's strength, basing their trepidations on the falacious belief that long hair has a tendency to weaken its possessor.

"I have been a farmer all my life, starting in Iowa in 1876," Langseth replied to this. "I have done all the heavy work, and have always found my strength capable of meeting the demand."

Among other stunts which the veteran beard grower has done, was one of distinction. While he was at Sacramento, he tied a hook and sinker to the whiskers, "cast" them into a pond, and tempted the fish to bite. King Langseth refused to say whether the venture was a success.

At present His Majesty is retired, living in Red River Valley, Barney, North Dakota. When he is not proudly exhibiting his hirsute appendage, he has it rolled into a ball and placed beneath his vest, where it is scarcely noticeable.

Exhibits Medals
Langseth showed countless photographs taken at Sacramento, and also a medal, in fac simile of a \$50 gold coin of 1849, which was presented to him as the owner of the longest whiskers.

He is 76 years old, and of late has devoted his entire time to whisker growing.

In spite of his retirement from all save facial foliage production, Langseth is active, and remarkably keen for one of his years. He is nearly six feet tall, and erect. The fact that the weight of his beard has never bent his shoulders is indicative of his splendid physique.

BIGAMY SUSPECT TO FIGHT EXTRADITION

LOS ANGELES, June 22.—While evidence connecting him with additional matrimonial escapades continued to pile up against him, Donald A. Stewart, formerly reviled, today declared he would fight extradition on charges of polygamy, according to jail authorities.

Stewart, held incommunicado, is wanted in several eastern cities where authorities are now taking measures for his return.

Walter S. Ward, millionaire (left), headed for jail at White Plains, N. Y., after he pleaded not guilty to a murder indictment. Though he may be jailed three months without bail before his case is called, Ward is smiling.

HARDING BANS INDEPENDENCE FOR ISLANDS

President Denies Plea of Philippines Delegation for Freedom; Says Time Not Ripe.

WASHINGTON, June 22.—President Harding today refused to approve "absolute, immediate and complete independence" to the Philippines, as recently requested by the delegation from the islands.

The president's refusal of the plea for independence was made known to the delegation in a conference at the White House this morning.

Harding, it was said, expressed a hope that independence should be granted the islands ultimately, but he made it clear that he does not yet consider the time ripe for such action.

IDAHO BANKER FACES LONG PRISON TERM

POCATELLO, Ida., June 22.—Stephen L. Reece today faced three years imprisonment at McNeill's Island federal penitentiary and a \$5,000 fine as a result of his conviction last night by a jury here on a charge of misappropriating funds of the Banquet National bank of Pocatello.

Reece is former president of the bank.

Defense attorneys filed a motion for a new trial after the verdict, which included the recommendations for his sentence, had been returned.

THREE DEAD RESULT OF MOONSHINE RAID

ALBANY ORE, June 22.—Albany's latest moonshine raid took toll of three lives last night when David West, 70, a farmer, shot and killed Sheriff C. M. Kendall of Linn county and Rev. Roy Healy, pastor of the Christian church here, and then committed suicide.

PREMIER LOSES DOUBLE CLASH IN COMMONS

LONDON, June 22.—The Lloyd George government was defeated in the grand committee in the house of commons today. The committee adopted an amendment to the national health insurance bill which the government had opposed.

The house adjourned immediately following announcement of this defeat to permit the government to consider its position.

Defeat of the government in the house of lords yesterday when the Palestine mandate policy was rejected, added to twenty-nine, despite the Earl of Balfour's maiden speech, followed so closely by today's defeat gave opponents of the government something definite upon which to base their demands for resignation.

Lloyd George's political enemies feel that now is the time they can most embarrass him by forcing the House to carry on the premier's Genoa policies, resignation of the ministry probably would mean collapse of the entire project of reconciliation with Russia.

Political observers say that unless Lloyd George himself is ready to resign he will be able to weather the storm and continue in office until after the Hague conference.

A general election is due in the fall anyway, and it is merely a question now of what Lloyd George considers the best time to hold one.

PASTOR'S TRIAL FOR SLAYING NEARS END

CHARLESTON, W. V., June 22.—Testimony in the murder trial of Rev. James E. Wilburn, Baptist preacher of Blair, W. Va., charged with the murder of Deputy Sheriff John Gore during the Logan county mine war last summer, was completed here today.

Suggestions for instructions to the jury were to be presented to the court this afternoon.

SOLON TO URGE BAN ON SALE OF GLANDS

(United Press Leased Wire)
SAN FRANCISCO, June 22.—Operations involving the transplanting of glands from the human body will be an issue in the next session of the California legislature.

Assembly William Hornblower today that he would introduce a bill forbidding such operations.

Interest in the subject which first became intense in California when Dr. L. L. Stanley, of San Quentin prison made public the results of his gland transplanting operations on prisoners, was revived by the recent operation reported to have been performed upon Harold McCormick, Chicago millionaire.

Moral grounds were advanced by those opposed to such operations as the reason for their opposition.

"Of course, we must remember that the seller in each case is a victim of poverty and treat them as such, but the practice of selling glands is immoral," Hornblower declared.

"It is not right to take an organ from the body of one man and place it in the body of another, just because the second man has more money than the first. The creator never intended such a thing."

Hornblower predicted wide support for his measure.

"The only opposition to the bill that I can foresee," he said, "will come from the medical men."

GREAT MOB AMUCK IN ILLINOIS

Strike Breakers Captured and Shot and Beaten By Rioters

DYNAMITE BLASTS WRECK WORKINGS

1500 Strike Sympathisers, Heavily Armed, Storm Blockades

MARION, Ills., June 22.—(4 p. m.)—Bodies of seventeen men killed in the mine war were counted still lying on the road between Marion and Herrin late today. Seven bodies had been taken to Herrin, bringing the total of known dead to 24.

SPRINGFIELD, Ills., June 22.—The Williamson county mine battle is over, Sheriff Thaxton advised Adjutant General Carlos Black this afternoon. The sheriff's telegram timed 1:30 p. m. and addressed to Governor Len Small, declared the sheriff and his deputies are on the scene of the killings and that there will be no further outbreak.

HERRIN, Ills., June 22.—(2:45 p. m.)—Seven bodies of men killed in the mine war at the Southern Illinois Coal company's pit were brought here this afternoon. Six men recognized as members of the strike breakers' forces were found on the road from Herrin to Johnson City. Three were dead and two dying. They were tied together with ropes.

(United Press Leased Wire)
MARION, Ills., June 22.—(1:15 p. m.)—Thirty-five are dead in the mine warfare in the pits between Marion and Herrin, according to word reaching the office of Colonel Hunter, of the national guard here at this hour.

Colonel Hunter's aide announced that these reports were brought in by eye-witnesses to the killings who had counted the bodies.

Colonel Hunter was still at the scene of the battle surveying conditions.

Word was sent back to Marion by Colonel Hunter that he found the mine of the Southern Illinois Coal company, where strike breakers had been employed, a total wreck.

Buildings were burned, tracks torn up and cranes damaged.

Many Are Hanged.
Many bodies were hanging from trees and others showed evidence of severe beatings before being fired upon, these reports said.

Martial law seemed imminent. The strike breakers were taken prisoners as they were leaving the mine when it closed down early today.

They were surrounded by a mob of 1,500 strike sympathizers and a march to Herrin started.

During the march, firing broke out in the ranks of the rioters, according to reports given the national guard officers sent to the scene yesterday at the outbreak of the rioting.

When the firing had ceased, these reports said, fourteen bodies of the strike breakers were counted.

Two were killed in the rioting yesterday, bringing the total dead to thirty-seven.

Ambulances and undertakers from Marion were dispatched to the scene early this afternoon.

Mine strikers and sympathizers from surrounding towns gathered in Marion by the hundreds early today.

After a meeting in the public square the crowds of rioters marched toward the pit.

They stormed a stockade which had been erected around the mine, wrecked the workings and blew up buildings with dynamite which they obtained in raids on hardware stores at Herrin and Marion.

All sheriff's deputies and guard officers in this section were dispatched to the scene but were unable to cope with the mob.

Mine Officer Slain.
C. K. McDowell, superintendent of

ASSASSINS KILL NOTED BRITISH ARMY LEADER

(Continued from Page 1)

tempted to halt them was shot through the stomach.

"An unarmed policeman ahead of the murderers awaited their approach at a street corner. As they came to the corner, he leaped out and struck one of them on the head with his night stick, felling the man. Three or four of us grabbed the other and pulled him down."

The house of commons, of which Sir Henry was a member, representing North Down, Ireland, adjourned this afternoon in honor of the field marshal.

Three Policemen Shot
Scotland Yard announced this afternoon that three policemen were shot by the murderers during their flight.

One of the police wounded in the running gun fight following the shooting died later in the hospital. Police combed the Eaton Square district this evening in the hope of finding four men believed to have been accomplices of O'Brien and Connolly.

Police took the murderers to the Gerald Road police station, where the larger of the two began to put up a fight. He hammered the police with his fists and was badly beaten before he could be subdued. Another witness to the shooting said Wilson was alighting from a taxicab before his home and the assassins fired from behind a carriage drawn up at the curb. Wilson leaped up the steps leading to his home and tried to open the front door.

A volley was fired, one shot striking the field marshal in the head. He reeled, fell down the stairs and collapsed dead in a pool of blood.

STAGE PROTEST PARADE.
ATLANTIC CITY, June 22.—As a protest against bathing costume regulation, bathers here paraded the streets in barrels.

CHANGE "HOT DOG" NAME.
WASHINGTON, June 22.—The lowly "hot dog" goes by another name in the nation's capital. "Hot Laddie Boy" reads a poster for the Fourth of July celebration at Piney Branch, a suburb.

WALKS TOO FAR.
NEW YORK, June 22.—"Walk around. Give 'em a good tryout," the salesman advised. The customer did. He walked gingerly to the door and then went off the mark like Charley Paddock, leaving his old groghans with the bewildered sales man.

Two large islands formed in the Arkansas river, south of Boone, Col., as the result of recent floods.

Lying, cheating and theft are practically unknown among the Eskimos.

OPEN COURT BATTLE FOR WATER CONTROL

REDDING, Cal., June 22.—Suit to obtain control of one sixth of the water in Fall River, was filed here today by the Fall River Irrigation district against the Pacific Gas and Electric company. Both the company and the irrigation district claim title to the water, which is needed by farmers for irrigation and which the electric company claims is necessary to its Pitt River power project.

35 ARE KILLED IN ILLINOIS MINE WAR

(Continued from Page One)

the Southern Illinois Coal company, was reported beaten to death.

Many of the captured strike breakers were wounded, while others escaped in the underbrush. Most of the bodies were taken to Herrin.

Immediately after the killings, the mob dispersed. Five hundred autos were reported returning to various mining communities in this section.

The strike breakers, when captured by the mob, were reported heavily armed.

They had successfully fought off attacks during the night and mine officials had announced early today that no further attempt would be made to operate the works if the strike breakers were allowed safe conduct outside of the danger zone.

Dynamite Buildings.
The mine had been operated as a "strip mine" which operators claimed had no connection with union regulations.

Recently, however, the miners declared that the company had started digging for coal.

The entire mine was reported wrecked in the attack today. Huge steam shovels were blown to pieces in powerful explosions, heard for many miles. Spur tracks were ripped out and buildings blown up.

Missionary Society

METHODIST.

Mrs. John Oliver, vice president of the Woman's Foreign Missionary auxiliary of the First Methodist church, presided over the meeting at the church parlors yesterday afternoon while Mrs. C. W. Burns led the devotional service on "The Word's Redeemer."

Mrs. D. J. Palmer, membership secretary, announced the addition of 25 new names to the membership of the society. Mrs. Palmer and Miss Blanche Colling then gave most interesting accounts of the school of missions held in Los Angeles, May 28 to June 2, which were declared wonderfully successful both in point of attendance and interest of program.

Yesterday's study subject was "What the World Needs and Requires of Us," Mrs. Brandeburg, in charge of the program, spoke of the burdens of mankind—poverty and ignorance, stating that two-thirds of

the world cannot read or write, while in non-Christian worlds only one man in twelve and one woman in twenty-five can read or write. Mrs. McCormack told of race prejudice, declaring that missionaries by their teachings and Christian lives will help to overcome it. Mrs. Finn told of unrecognized allies. Mrs. Miller spoke of the spiritual burdens of mankind—the burden of indifference. Mrs. Cox ended the program with an interesting talk which was outlined on the blackboard as she proceeded through the divisions of her topic, "Our Personal Service."

The Island of Ceylon has more miles of railway than have several of the South American countries.

A single tusk of an East African bull elephant has been known to weigh 235 pounds.

Everybody Should Get After The
RATS Saturday Night

Saturday night has been officially announced as "RAT EXTERMINATION NIGHT" and every household in Santa Ana is requested to join in the movement which means better health for the community as well as a saving in resources.

AZOA

Is Safe and Sure

Briefly, Azoa is a disease-producing virus which when eaten by a rat or mouse develops a disease which kills it in from 14 to 28 days. An important characteristic of Azoa is the fact that rats and mice infected with the disease it produces almost invariably seek the open air to die. Thus the nuisance of dead rats about the buildings, under floors, in walls, etc., is practically eliminated. It is a well known fact that rats are cannibalistic in their habits. Those that first succumb to Azoa being weak from disease are attacked by their fellows and devoured. In this manner the disease is transmitted from one to another. Never kill a rat that is sick or "dopey" from Azoa; he is bait for others.

ons cordially in-
vited. Re-
freshments.

BREAK GROUND FOR
NEW ANAHEIM PLANT

(Special To The Register)
ANAHEIM, June 22.—With resi-
dents of Anaheim having subscribed
\$70,000 worth of stock in the \$100-
000 manufacturing enterprise of the
Oil Tool and Service Manufacturing
company, ground was broken today
for the new factory building to be
located at Santa Ana street and the
Santa Fe tracks. It is expected the
building will be completed within
thirty days.
The company will employ sixty
persons within thirty days after
starting, it was declared.
J. G. Maroney, formerly with the
P. R. and V. Products company of
Santa Ana, will be superintendent of
the foundry, in addition to which
there will be machine shop and
forge. B. D. McAlvay, of Anaheim,
president of the concern, will have
charge of the machine shop. E. N.
Putnam, vice president, will be sales-
manager, and Paul Brock, secretary-
treasurer, will be office manager.

AUTO CLUB BUILDING
SOON TO BE OCCUPIED

(Special To The Register)
ANAHEIM, July 22.—The new
building on South Los Angeles
street, for the local branch of the
Southern California Automobile club
will be ready for occupancy early
next week, Paul Allen, Anaheim
manager, announced today.
Equipped with modern features in
every respect, the building is said to
equal any office of its kind in South-
ern California.

FURNITURE STORES TO
HAVE HALF-HOLIDAYS

will close at 12 m. Saturdays dur-
ing the months of July and August,
according to an announcement here-
tofore made by the Spurgeon
Furniture company, W. H. Preston
and Son, Dickey-Baggerly company,
Chandler Furniture company, Claus-
en Furniture company, Rudd Furni-
ture company and J. C. Horton Fur-
niture store.

THE CHEERFUL CHERUB

Life brings sorrows
I agree
And yet each wee
that fortune sends
Brings with it, so it
seems to me,
Some kind and
unexpected
Friends.
R. Y. CANN

City and County

In a community meeting for the
benefit of Near East Relief to be
held tomorrow evening at 7:30
o'clock at the Olive grammar school,
Olive, Miss Irene Eldred, a relief
worker, returned from Tarsus, Tur-
key, and C. V. La Fontaine, will lec-
ture on the work of the relief ag-
ency and exhibit the much-discussed
land. No admission will be charged.
K. V. Wolfe, of the First Nat-
ional bank at Olive, is local Near
East Relief treasurer.

Mr. and Mrs. Robert McKibben,
the latter formerly Miss Stella Vir-
ginia Chamberlain, Fullerton school
teacher, today were on their honey-
moon, following their marriage last
Tuesday night at the home of Mr.
and Mrs. W. E. Chamberlain, par-
ents of the bride, 225 Jacaranda
popular student at the University
of Southern California and his mar-
riage came as a surprise to his
friends. Miss Chambers had taught
in the Fullerton schools for the past
two years.

With shipments of cantaloupes
from the Imperial valley yesterday
breaking all records for one day
shipments, it was expected today
that shipments of melons would de-
crease from this on to the end of
the season. Orange growers of
Orange county were interested in
this announcement, for it means
that the cantaloupe soon will be
eliminated as competitor on Eastern
markets this season. It is predicted
that Orange prices will be firm for
weeks to come. It is reported that
510 carloads of melons were shipped
from Imperial valley yesterday.

Building of sidewalks and curbs in
the three subdivisions of the Mc-
Fadden tract was nearing com-
pletion today, according to A. B. Rou-
elle, owner of Subdivision No. 3,
and salesmanager for Tract No. 1.
Several teams were at work grading
the streets, which later will be oil-
faced. Two houses were started on
Tract No. 3 this week, one by V.
Anderson and the other by W. Lutz.
They are located on Cypress street,
south of Edinger. George Gibbons
and A. Derby are preparing to build
on the same tract on Main street.

Building permits totalling \$8,000
during the forenoon today brought
the monthly figure to \$459,767.
Since January 1 permits calling for
construction estimated at \$1,765,635
have been issued by City Building
Inspector W. S. Decker.

Mr. and Mrs. A. W. Stahl, 702
Flower street, today were back in
Santa Ana after an extended mo-
tor trip which took them to the
Yosemite valley and other points
in the northern part of the state.
They report that the summer ac-
tivity has begun in the Yosemite
and that indications are that a
record number of visitors will be
present during the period. Mr. and
Mrs. Stahl said they saw several
Santa Ana parties while they were
on their trip.

The California water and power
act is to be debated tonight at the
meeting of the Men's club at the
Church of the Messiah, at 6:30
o'clock, by H. B. Woodruff, of
Costa Mesa, for the act, and Free-
man H. Bloodgood, of Santa Ana,
against it. J. S. Rice, of Tustin,
is to give a talk on the Civil War
period, and will be followed by
Fred Wilde and piano solos by
Miss Margaret Stumpf.

The Young Men's Bible class of
the Spurgeon Memorial church will
hold a business meeting and an-
nounce the date of the Friday night
at 6:30 North Van Ness. All members
are urged to be present.

L. B. Smith, Deputy Chief Farm
Advisor of California was the
guest of Farm Advisor H. V. Wal-
berg today. After lunch the in-
spection of various conditions in Orange county.
Smith will assist Wahlberg in
outlining projects for the remain-
der of the year.

Douglas McPhee, son of Horace
McPhee, now of Santa Paula but
formerly editor of The Santa Ana
Blade, today held a diploma from
the University of Redlands, fol-
lowing graduation exercises there
yesterday. Young McPhee is pre-
sident of the student body at Red-
lands.

WIFE DESERTED MATE,
DIVORCE SUIT PLEA

Edna Kathleen Wees was charged
with having deserted her husband,
Milton Edward Wees, in the latter's
divorce complaint, which was filed
today in the superior court through
Attorney Leonard Evans, of Ana-
heim.
Married in Los Angeles, October
5, 1911, the couple separated No-
vember 25, 1920. There are no chil-
dren.

DESERTION CHARGED
AS WIFE ASKS DECREE

Charging desertion and non-sup-
port, Lenora Ruth Greiner today
sought release from her bonds of
marriage to Arthur L. Greiner.
Her divorce papers, filed in the
superior court through Attorney
Leonard Evans, of Anaheim, states
that the couple were married in San
Diego November 28, 1917, and that
her husband deserted her January
23, 1921. They have no children.

MAN ON OIL RIG
FALLS 60 FEET
TO DEATH

Falling sixty feet from an oil
derrick on which he was at work,
A. N. Logsdon, 40, an employee of
the Keck Drilling company, sustained
at 5 a. m. at Brea today fatal in-
juries which resulted in his death at
8 a. m. at the Fullerton hospital.
He sustained fractures of the
skull, jaw, both legs and one arm.
Coroner Charles D. Brown will
conduct an inquest tomorrow after-
noon at the Angus McAuley under-
taking parlors at Fullerton, where
the body was taken later today.
Logsdon lived at 221 Pomona ave-
nue, Brea. He leaves a widow and
three children. One son has been
attending the Fullerton high school.

U. S. FOREIGN
WAR VETERANS
MEET IN L.A.

(United Press Leased Wire)
LOS ANGELES, June 22.—Four
generations of America's soldiers
assembled here today when the sec-
ond annual encampment of the Vet-
erans of Foreign Wars, department
of California and Nevada, opened its
session in Moose Hall.

Uniforms of the nation's various
expeditions and wars in foreign ter-
ritory were seen when veterans, be-
ginning with a few survivors of the
Mexican war of 1846 to 1848, vet-
erans of the Spanish-American war,
the Boxer rebellion in China, the
Philippine insurrection down to
those of the World War, answered
the roll call.
Mayor George E. Cryer delivered
the address of welcome and Depart-
ment Commander H. P. Walls made
the response.

Among the speakers today were
Captain Eddie Rickenbacker, Ameri-
can flying ace in the World War,
and Robert Smith, secretary of the
California veterans welfare board.

EDUCATION OFFICIAL
IN PHILIPPINES HERE
ON VISIT TO BROTHER

L. Martin, who has been Cebu,
Philippine islands, for the past six
years as educational supervisor of
basketry and gardening in the United
States department of education,
is in Santa Ana, enjoying a visit with
his brother, W. B. Martin. He is
taking a leave of absence for five
months and expects to visit points in
Kentucky and other Eastern states
before returning to the islands.

LETTERS CAUSE STIR
IN OBENCHAIN TRIAL

LOS ANGELES, June 22.—Let-
ters that Madalynne Obenchain is
said to have written to a friend
from her cell after her arrest in
connection with the alleged murder
of John Belton Kennedy caused a
controversy at her trial today.
The state claimed that these let-
ters, which have not been men-
tioned in previous trials of the
Kennedy case, contain admissions
which substantiate many of the
state's contentions.
The defense vigorously protested
the introduction of the notes.

SAN DIEGO TEACHERS
FEAR SALARY SLASH

SAN DIEGO, June 22.—San Diego
teachers are up in arms over the ac-
tion of school authorities in handing
them blank contracts to sign and re-
turn in four days or be dropped from
the payroll rolls.
Teachers who sought information
from the superintendent's office say
they were told "all the information
is in the contract," although the
paper contained no salary figure.
The teachers suspect they are being
compelled to put their signatures to
salary reductions in some cases.

BLOCK STRIKE TRUCE.
CLEVELAND, June 22.—The pro-
posed truce of coal operators and
union mine officials of the central
district comprising Ohio, Indiana,
Illinois and Western Pennsylvania,
in an effort to end the coal strike,
has been abandoned, coal operators
here told the United Press today.

DEATH CALLS MOTHER
OF MRS. G. GERWING

After a year's lingering illness
from paralysis, death yesterday
released from suffering, Mrs.
Elizabeth Pineau, at the home of
her daughter, Mrs. George Gerwing,
202 South Bristol street.
Mrs. Pineau, a native of New
York, had made her home in Santa
Ana for the past fourteen years,
and since the death of her husband,
M. Pineau, six years ago, has resided
with her daughter and only child,
Mrs. Gerwing.

Funeral services will be held to-
morrow at 2 p. m. at the Mills and
Winbiger Mission Funeral home
with the Rev. F. T. Porter officiat-
ing. Burial will follow in Fairhaven
cemetery, by the side of her hus-
band.

MAN WINNER IN SUIT
OVER CRASH DAMAGES

William Overton was today award-
ed judgment for \$168.30 and costs
of his suit against Joe Brown, which
was heard by Justice J. B. Cox.
Judgment covered the full amount
of the claim made by Overton, whose
automobile was alleged to have been
damaged in a collision with a truck
driven by Brown in this city June 1,
1921.

OIL WELL RIG THEFT CASE
MAN'S BONDSMEN QUIT HIM

Deserted by his attorney and his
bondsmen, J. W. O'Day, charged with
grand larceny in connection with
the alleged removal of oil drilling
equipment valued at \$7,500, from the
Sunrise Consolidated Oil company's
well near El Toro, found himself to-
day in the county jail with his trial
but three days away.
Coincidentally with the announce-
ment that his attorney, L. J. Euler,
of Los Angeles, had withdrawn from
the case, O'Day's bondsmen, Mrs.
Jennie Hill and George M. Crandall,
who had posted \$2,000 bail, sur-
rendered him late yesterday to the
sheriff.
O'Day appeared in court today be-
fore Superior Judge R. Y. Williams,
who requested him to secure an at-
torney before the trial, which is set
for next Monday at 10 a. m. If
O'Day cannot secure counsel of his
own choosing, it will be necessary
for the court to appoint an attorney
to defend him.
Speculation today centered upon

Hapgood Tells Why
He Opposes Ford's
Anti-Jewish Drive

"Zionism represents the con-
structive side, and Henry Ford,
with his anti-Semitic campaign,
the negative side of the Jewish
question," declared Norman Hap-
good, noted editor and former am-
bassador to Denmark, who has tak-
en sides against the anti-Jewish drive
in an interview given in New
York.

Hapgood said that his desire to
bring about the restoration of the
Jewish homeland was even greater
than his wish to drive out of
American life such reactionary
propaganda as he says Ford has
been duped into conducting.

Hapgood became interested in
opposing Ford's campaign, he says,
when he found that Ford had
drawn a check to Boris Brasol, a
former secret service agent under
the Czarist regime in Russia.

Hapgood claims that Brasol is
openly working to bring the Re-
manoffs back to control in Russia.
It was this information, the editor
says, which induced him to take
up arms in behalf of the Jewish
people.

"The Jews belong to one of the
two most interesting peoples that
ever existed, the other being the
Greeks," Hapgood stated.

Hapgood urged all Jews to sup-
port the Palestine Foundation fund
as a means of securing a perman-
ent home for the race.

ACCUSE GIRL AS
SHE TESTIFIES
AT TRIAL

The unusual spectacle of a trial
being conducted as both a crimin-
al and civil procedure was present-
ed in Justice J. B. Cox's court with
the result, it was shown today, that
while Miss Edna Love, Los Angeles
girl, managed to extract O. Divers,
of that city, from the role of de-
fendant, she found herself in his
place, facing prosecution on a
charge of reckless driving.

While the jury was hearing tes-
timony at the trial of Divers on the
criminal charge, late yesterday,
Justice Cox was weighing the same
testimony for application to a civil
suit for damages, filed by the
Crown Stage line manager, A. B.
Watson, against both Divers and
Miss Love.

By stipulation of Attorneys Clyde
Bishop, representing Watson, and
S. R. Kaufman, representing Divers
and Miss Love, this testimony given
at the jury trial of Divers was ad-
mitted in the civil case, a further
hearing of which will be held lat-
er. Watson asks \$114.09 as dam-
ages to a stage, which lost two
wheels in a collision with the Di-
vers car near Westminster April
16.

When Miss Love testified at the
trial today that she was driving Di-
vers' machine at the time, the
criminal charge against Divers col-
lapsed, but another one was substi-
tuted in its place against the girl.

Girl Makes Slip
Attorney Kaufman attempted
vainly to prevent her from let-
ting the information slip, but she
made the statement before she
could be halted. Later it was
stricken from the records, but not
in time to halt the prosecution.

Deputy District Attorney D. G.
Wetlin promptly asked that the
case against Divers be dismissed.
The court instructed the jury to
return a verdict of not guilty and
this verdict was found.
Miss Love was immediately ar-
rested and her trial was set for
July 1 at 9 a. m. She asked for a
"dry trial, after pleading not gui-
ty."

CHICAGO BOARD OF TRADE

CHICAGO, June 22.—All grains closed
higher on the Chicago Board of Trade
today. Continued hot and dry weather
in the grain belt with repeated reports
of heavy damage to crops was the main
factor in the day's advances. The reg-
ions hit hardest by the drought are
South Dakota, Western Canada, East-
ern Iowa, Illinois and parts of Indiana.
Provisions were lower.

CHICAGO CASH GRAIN

CHICAGO, June 22.—Cash wheat, No.
3 hard, 113 1-8.

SAN FRANCISCO MARKETS

SAN FRANCISCO, June 22.—A scarcity
of peaches for the early morning
trading was quite apparent. Buyers
were either forced to wait for the un-
loading of late boats or to go un-
filled. As a result prices were generally
fencing during the day. Baskets selling from
\$1.50 to \$1.65 each.

The quality of string beans on this
market has not been maintained. Sup-
plies of Southern beans were heavier
and prices dropped to 8 to 12 cents a
pound on them. Special garden or Ital-
ian beans were in light demand at 17
to 20 cents a pound.

Strawberries, raspberries, logans,
and blackberries were very plentiful.
Though prices remain about the same
with minor changes. About 850
chests of straw were received this
morning. Some special Cory Thomless
day at 85 cents to \$1.00 each. These
berries are large and of a very fine
quality.

Trading in ice house potatoes is very
quiet. A few sales are reported at \$1.75
cwt. on truck or at the ice house and
jobbing prices have declined about 25
cents a bag.
The movement on tomatoes is slow.
Both Mexican Jugs and Mississippis
crates were quoted lower while im-
perial tomatoes were rather dull at un-
changed prices.

Supplies of cantaloupes were heavier,
17 cars having arrived during the last
24 hours and a wide range in prices
was heard on the streets. The market
looked much weaker with standard
crates selling 25 to 30 cents each. The
Supplies Light: Pineapples, blackber-
ries, gooseberries, figs, currants, grape-
fruit, peaches, good celery, artichokes,
cabbage, egg plants, peppers.

Supplies Liberal: Apples, oranges, ha-
zards, lemons, apricots, cherries, ras-
pberries, strawberries, potatoes, aspara-
gus, spinach, peas, lettuce, cucumbers,
tomatoes, cantaloupes, beans, squash.

LEGION IN BIG CAMPAIGN HERE FOR MEMBERS

With the national American Legion drive for members scheduled to begin July 1, members of Santa Ana Post No. 131 today were preparing to draft plans at their meeting here tonight to join in the campaign in an effort to bring the local organization up to last year's membership.

Clyde Whitney, adjutant, today said that it was possible that a committee would be named to conduct the drive, which is aimed to interest all eligible ex-service men who are not now members of the post. This will apply to men who have never joined with the Legion, it was said. Arrangements also will be made to appoint a committee to circulate a petition in Orange county to secure signatures of 1450 voters for an initiative asking that the state constitution be changed to permit California to loan money to ex-service men for the purchase of homes and farms.

Annual picnic of Hermosa Chapter of Eastern Star will be held Saturday, June 24th, at the Orange County Park. All members of Eastern Star and families are cordially invited. Anyone wishing transportation please notify John A. Harvey.

IOWA BANK IN SUIT BROUGHT HERE SEEKS RECOVERY ON NOTES

C. E. Brayton was made defendant today in a suit filed in the superior court here by the First National Bank of Clear Lake, Iowa, which seeks to recover approximately \$2,000, including costs of suit, attorney fees and interest on two notes, which form the basis of the action.

The plaintiff cites one note for \$1500, none of which sum, it claims, has been paid, and another note for \$1000, all of which has been paid, excepting \$4.27, but on which there is said to be \$102.39 interest due.

The legal firm of Head, Rutan and Scovel, Santa Ana, represents the eastern bank.

ASK TO COMPROMISE IN DAMAGE ACTION

Permission to compromise the damage claim of Clarence Robinson, 35, who was injured when struck by an automobile driven by Mrs. R. E. Williams in this city February 1, was asked today in a petition from Robinson's father, Frank Robinson, filed in his behalf in the superior court.

Robinson asks leave to accept a compromise settlement for \$383.35 from Mr. and Mrs. Williams and their insurance carrier, the New Jersey Fidelity and Plate Glass Insurance company.

In the accident, which took place in the 1200 block on West Fourth street, young Robinson sustained a broken leg.

RUSH WORK ON HOTEL BLOCK AT LA HABRA

LA HABRA, June 22.—The new hotel block is being rushed to completion. The tenants have been ready for some time, and this handsome addition to La Habra's business center will contain besides the hotel, an up-to-date drug store operated by Charles Lumsden and "Swede" Evans, two well-known Standard men, and residents of the valley. Evans is the famous football athlete of U. S. C.

James Caramel-cake. You will want another one.

I. W. W. TRIALS NEAR END AT SACRAMENTO

SACRAMENTO, June 22.—Trials of ten members of the I. W. W. here charged with criminal syndicalism under the state criminal syndicalism law, was expected to come to an end today.

Contrary to previous indications, it was understood before court opened that no I. W. W. members would be called as defense witnesses, the defense feeling such a course would be useless in view of the state's announcement that witnesses admitting I. W. W. membership themselves would be arrested.

Yesterday's session was marked by two bits of interesting testimony.

Defense witnesses testified that Dr. C. H. Chapman, said to be a former president of the University of Oregon, had joined the I. W. W. and at present was chief of the I. W. W. educational department.

Milton Ferguson, state librarian, testified that more than twenty I. W. W. publications are on file at the state library. The defense claimed this was evidence of evidence of evidence in the publications and also that they had state recognition.

HOUSE MEMBERS PLAN TO QUIT WASHINGTON

WASHINGTON, June 22.—A series of three-day recesses, starting July 1 and continuing until the senate finally disposes of the tariff bill, is planned by the house members, following President Harding's acceptance of the plan to postpone action on the ship subsidy bill for a month.

If everything goes smoothly and the house is able to get away as soon as expected, politics will start to hum shortly all over the country. The main reason why the 454 house members is eager to recess is so they will have an opportunity to get back to their districts and begin mending their political fences.

Under the three-day recess plan, a few house members—those who live close by—would have to meet in the house every third day and move another recess.

The bulk of the members could leave Washington for their homes, not to return until the tariff bill was ready to be sent to conference between the house and senate.

NAME COMMITTEE OF 5 FOR ANNUAL RODEO

ORANGE, June 22.—George C. Woods, Stanley Mansur, W. O. Hart, George C. Sherwood and L. W. Hemphill have been named a committee of five to formulate plans to make the recent rodeo an annual event, it was announced here today.

The committee is to organize itself with chairman, vice chairman and secretary. They are to meet once each month until the first of the new year, the purpose of their meetings being to formulate general plans and present them to the Chamber of Commerce and Merchants' association for acceptance or revision.

There will be various matters for discussion at these meetings, viz: the name for the festival, the length of time that shall be covered, the date, and the combining of the other features with a pageant worked out by the grade schools, and which proved such a success at the close of the recent term.

THE NEXT SUNDAY SCHOOL LESSON

PRACTICAL NOTES PREPARED FOR THE REGISTER

PRACTICAL NOTES ON THE SUNDAY SCHOOL LESSON

By Cal. Ogburn

Lesson for June 25, Review

The review of the quarter's lessons may well begin with an "if." We have seen the intermittent but positive decline of the kingdom of Judah, over a period of 400 years, from the end of Solomon's reign to that of Zedekiah. From one of the "world powers" under Solomon, Judah sank into insignificance and finally lost her national identity entirely, which, to this day, never was fully regained.

"Now," someone offers in explanation, "if the kingdom had not divided, the prestige and power of Judah would have increased. The oppression of the people by Rehoboam and their consequent rebellion under Jeroboam resulted in the ultimate downfall of the kingdom." In support of this theory it is pointed out that our own nation is great today because the Rebellion of '61 failed. And it looks plausible.

Says another, "The downfall of Judah came as a result of being ruled by kings who were lacking in statesmanship. Many of them were weak—some of them contemptibly so—and not a few of them were sadly lacking in tact and discretion. If the kingdom had been ruled by Washingtons and Lincolns, Judah would have maintained her place as a world power." And that seems reasonable.

And still another says, "If the circumstances only had been different. The little kingdom of Judah was ground into the dust in the struggle for supremacy between the long-established kingdom of

MAN'S LEG BROKEN AS R. R. TIE FALLS ON IT

Suffering with a fracture of the right leg, Joe Perez, 34, of Stanton, was being treated today at the county hospital. The accident to Perez took place at Stanton, where he was employed as a section hand by the Southern Pacific railroad company. A railroad tie fell upon Perez' leg, causing the fracture. He was attended by an Anaheim physician, who brought him to the hospital.

SEES BENEFITS FROM RULES ON FUMIGATION

Uniform regulations for the fumigation of citrus groves, adopted by the county horticultural commissioners of Orange, Los Angeles, Riverside and San Bernardino counties at Pomona last Tuesday, will provide adequate record of activities of all fumigators, and thereby assist the department in checking all faulty work, Commissioner A. A. Brock declared here today.

During the winter of 1921-22, Orange county growers expended \$500,000 for fumigation. It is possible that less fumigation will be carried on this year than last because the frost losses have left the growers in a less prosperous condition. Authorities, however, point out the fact that the scale can get a foothold on the new shoots and cause great damage, unless fumigating is done.

Confer With Experts

H. J. Ryan, Los Angeles; J. P. Coy, San Bernardino; A. E. Bittel of Riverside, and Brock were the horticultural commissioners who met with R. S. Woglum, entomologist of the California Fruit Growers' exchange, and Inspector K. L. Wolff of Los Angeles.

The requirements adopted by the commissioners are in substance:

Work must not be carried on when wind is strong enough to cause movement of tent walls.

Trees shall be given not less than forty-five minutes' exposure regardless of dosage.

Trees shall not be fumigated with pots or cyanofumer when temperature is below 37 degrees F.

Trees shall not be fumigated with liquid gas when temperature is below 50 degrees F.

Work shall be discontinued when tents are damp.

A written contract between grower and fumigator is recommended. There is considerable danger of tree injury at high temperatures. The danger point is reached in coastal districts, near 75 to 80 degrees.

Daylight fumigation is not recommended at any time except beginning late in afternoon under most favorable cloudy conditions.

COMPLETE STREET WORK LA HABRA, June 22.—The last

lay toward finishing the street work between Hill street and Main street was begun when the Dunbar company commenced operations on the ten-foot sidewalk on this block.

Flashlights, Repairs at Hawley's

Explains How Enlarged Veins Can Be Reduced

Many people have become despondent because they have been led to believe that there is no remedy that will reduce swollen veins and bunches. If you will get a two-ounce original bottle of Moore's Emerald Oil (full strength) at any first class drug store and apply it night and morning as directed you will quickly notice an improvement which will continue until the veins and bunches are reduced to normal.

Moore's Emerald Oil is extensively used in hospitals and in factories as first aid to the injured. It is a harmless, yet most powerful germicide and two ounces lasts a very long time. Indeed, so powerful is Emerald Oil that soft bunches, goitre, swollen glands and wens are reduced. It is one of the wonderful discoveries of recent years and anyone who is disappointed with its use can have their money refunded. Your druggist can supply you—adv.

To Visit Salt Lake City Representing President of Fraternity

As personal representative of Mrs. Mary C. Love-Collins, national president of the Chi Omega fraternity, Miss Estelle Nisson, 2500 North Main street, left today for Salt Lake City to attend the national Chi Omega convention opening there tomorrow, June 23.

Representing the president, Miss Nisson will give a report of the conditions both in active college and alumni chapters of the fraternity, situated on the Pacific coast, having gained her knowledge from an exhaustive survey of conditions from the University of Washington southward, during the past year.

Mrs. Love-Collins wrote to Miss Nisson some time ago, in regard to her acting in such a capacity, and following the decision of the latter to do so, came the appointment from the Los Angeles alumni chapter as local delegate, so time at the convention will be fully occupied.

Miss Nisson anticipates a delightful week, however, spent with delegates from chapters all over the United States, in the pleasant surroundings of Pine Crest Inn, a palatial summer hotel of Salt Lake City, which was chartered for the entire week as convention and delegate headquarters.

Mrs. Love-Collins, whose representative, Miss Nisson will be, in addition to being national Chi Omega president, is also president of the Pan Hellenic association.

June-Time Blossoms Deck Country Club In Honor of Bridge Guests

Decked with masses of Scotch bloom, dahlias, and all the rich bloom of a lavish summer, the country club was the rendezvous of a group of bridge enthusiasts yesterday afternoon, gathering in response to the invitation of Mrs. C. V. Davis and Mrs. Ralph Mosher.

Seated at the small tables scattered throughout the rooms, the guests enjoyed an exciting series of games, Mrs. Alice Harris proving to be the most expert player and winning the first prize. Mrs. George Briggs was awarded the second prize, while Mrs. Farnsworth received consolation for her lack of success at cards.

Following the games, the tables were spread with dainty linens and garnished with low bowls of sweet peas and bachelor buttons, while a delicious tea menu was served by a bevy of charming young girls. These were the Misses Mollie Mosher, Evelyn Lester, Eleanor Lester and Emily Holmes, all gowned in crisp organdy frocks in vivid colors.

Enjoying the hospitality of Mrs. Davis and Mrs. Mosher were Mesdames Anthony Adams, Robert A. Kinson, W. D. Barker, J. N. Bartholomew, J. P. Baumgartner, George Briggs, Roy Browning, J. T. Connelly, Lester Carden, Fred Chapman, J. I. Clark, Spencer Collins, Addie Collins, L. A. Colver, Ella Campau, Cassidy, Ray Chandler, E. B. Collier, H. H. Dale, Rose Doyle, H. C. Dawes, H. P. Duckett, O. E. Edgar, George Edgar, Nelson Dodge, F. E. Farnsworth, W. A. Flood, O. K. Forgy, F. W. Fuller, E. S. Gilbert, J. E. Cowan, James Harding, J. P. Hatzfeld, Jack Hayden, C. D. Holmes, W. A. Huff, A. V. Herr, Charles Kendall sr., Charles Kendall jr., Harry Kendall, C. S. Kelley, George Lester, Harry Leipsic, Hugh Lowe, Mark Lacy, A. H. Lyons, Edward McWilliams, J. C. Metzgar, J. H. Metzgar, F. B. Miller, Lewis Moulton, E. S. Morrow, Harold Nelson, James O'Keefe, J. Fred Parsons, Robert Paine jr., J. E. Paul, Arnold Peck, Reynolds, Chas. Riggs, F. S. Robinson, R. B. Robinson, W. A. Roster, Susie Rutherford, A. W. Rutan, M. R. Scott, G. K. Scovel, Burr Shafer, R. R. Shafer, F. W. Slabaugh, George Smith, William Spurgeon jr., L. G. Swales, J. D. Thomas, Howard Timmons, John Tubbs, Lester Tubbs, Ashby Turner, R. R. Tutthill, J. S. Warner, Bert and West, E. A. Winbiger, W. E. Winlow, Clyde Whitney, M. A. Yarnell, Adam Zaiser, Fred Zaiser and Albert Zaiser, Miss Easton, Miss Alice Harris, Miss Rosa Boyd, Miss Wood and Miss Virginia Metzgar. Miss Elizabeth Paine and Miss Vivian Morehouse of Whittier.

Andrist Academy of Music Presents Piano Pupils In Interesting Program

A very charming affair was given last night by the piano students of Mrs. G. F. Andrist of Tustin at the home of Mr. and Mrs. Hugo Lamb on South Sycamore street. The beautiful rooms were decorated with ferns, roses and carnations, and a very appreciative audience of 75 persons greeted the students. A splendid program had been prepared and the players certainly showed ability in their work of technic and expression.

Juvenile pupils showed good training, with ease and good time in their work. Little 5-year-old Harold Christensen deserves special mention as soloist and also in accompanying the violin. A storm of applause, in fact, greeted every number. Lois and Alice Lamb won appreciation in their special duet, also in solo work. The children's chorus sweetly sang "T' Every Star An Angel."

The Mitchell sisters, as usual, delighted the audience with a duet, "Hungarian Overture," a concert waltz by Phyllis Mitchell, and a military gallop by Marie Mitchell. Violin solos by Hugh Rinnell and Earnest Rubins accompanied by the latter's sister, Violet, were much enjoyed. The students were very ably assisted by Mrs. John Webster, reader, Mr. Frank Odenbriet, tenor soloist, Mr. Earnest Nickels, whistler, and Prof. and Mrs. Andrist, violin and piano, all numbers being given very artistically and many encores demanded. During the intermission Mrs. Hugo Lamb, assisted by Miss Maxeline Armstrong served delicious fruit punch and wafers and a social time followed.

Those taking part in the program besides those already mentioned were Maxine Pierson, Aileen Case, Harold Case, Lola Storm, Bert Rinnell, Violet Rubins and Maurice Stockton.

Devotional led by Miss Marion Preston, emphasized that only by serving God, can we have real and lasting contentment.

Miss Geneva Moore gave an interesting account of some of the mission stations in Porto Rico and Japan.

Mrs. O. L. Halsell appointed Miss Clara Kellogg chairman of the pageant committee. Her assistants are Misses Frances Egge, Myrna Myrlee, Alice Olive Forney and Wilma Flanagan.

Mrs. Halsell also gave out Chinese apron patterns to the girls, the members promising to make aprons for the girls in the Tooker Memorial school of San Francisco.

Rhubarb Pie-Like Mother Used to Make

NOT less appetizing than rhubarb meringue pie, is real plain, old-fashioned rhubarb pie. Here's the way to make it:

Mix flour and sugar. Cover bottom crust with half the sugar mixture. Add rhubarb and sprinkles over remaining sugar.

FOR THIS RECIPE YOU NEED
Two tablespoons flour
One cup sugar
One and one-half cups rhubarb, cut up small
Pie dough

Dampen edge of lower crust and fit top crust very carefully and firmly over lower crust.

Pinch edges tightly. The edge of a rhubarb pie must be carefully made, otherwise the pie will boil over and the juice will run away. Bake 45 minutes in a moderate oven.

Rhubarb and strawberries can be combined in a delicious pie. Use half as much rhubarb as berries. Wash berries and drain. Dry between paper towels.

Mix two tablespoons flour with one cup sugar for one cup berries and one-half cup rhubarb. Use as in preceding recipe. This pie can be baked with only one crust and covered with meringue or baked with two crusts and served with whipped cream.

Personals

Mrs. E. B. Collier, 117 East Washington street, has as her house guests, Mrs. Lucy Ficken and Miss May Mullane of San Francisco.

Mrs. C. E. Pratt and daughter started yesterday for Indianapolis, Ind., where they will visit relatives and friends.

Mrs. Pope Hill of Pasadena arrived early in the week for a visit at the home of her father, Judge Z. B. West, and with the members of the Hill family connection residing here. Before returning to Pasadena she will also spend a few days at Huntington Beach with her aunt, Mrs. Ada Brown.

Miss Myrtle Meyer, of the Orange County Title company, and Miss Mary Hilliard, deputy county assessor, are preparing to leave Saturday for a six weeks' vacation, during which they will take a trip to Alaska.

Mr. and Mrs. George S. Smith and their daughter, Mrs. Roney Atsitt, and her small son, with Dr. and Mrs. P. R. Reynolds are leaving tomorrow for Big Bear Lake. The Smith and Reynolds cabins are located on Eagle Point.

Guy Penn, Robert Wilson and Byron Stumpf have returned from a pleasant outing at Big Bear Lake where they took a cabin for a few days and enjoyed the fishing.

Mrs. J. H. Walker, 514 East Second street, is enjoying a visit from her cousin, Mrs. H. L. Vedder of Ventura who, arriving Tuesday, will remain for a several weeks' stay.

Miss Vivian Morehouse of Whittier, is the house guest of Mrs. Thos. A. Winbiger, 207 East Ninth street.

Mrs. L. J. Carden has returned to her home at "Holtan Arms," Los Angeles, after a pleasant little visit with her daughter, Mrs. J. S. Hill, 730 Minter street.

Charming Program Offered for Pleasure of Music Section Guests

Extremely varied were the numbers of the program offered members and guests of the Music section of Ebell club last night at the hospitable home of Mrs. Theodore Winbiger, 207 East Ninth street. Bringing the club year to a close, the section made the final meeting delightful for their friends by issuing invitations to a musicale, and the spacious Winbiger home was the chosen and logical place for entertaining. Mrs. Winbiger long ago instituted the custom of entertaining the section at its regular meeting and while she has refused to accept the leadership of the section longer, will continue to offer her home as meeting place.

Greeted at the door by Mrs. Winbiger, Mrs. Alex Nelson, leader for the coming year, Mrs. John Wehrly, Mrs. C. S. Crose and Mrs. J. C. Hamill, the guests were ushered to the drawing-room, where the program opened with a delightful number by a trio composed of Miss Ruth Armstrong, pianist; Miss Lilla Fagge, violinist; and Mrs. Nina Staples, cello. They gave a beautiful rendition of the first movement of a trio by Gade, "Opus 42, L'Allegro Animato." Mrs. Crose, who was announcing the numbers, then introduced Miss Vivian Morehouse, of Whittier, whose voice is a delight, so rich it is and smooth. Miss Morehouse sang two numbers, "Songs My Mother Taught Me" and Teresa Del Riego's "Thank God For a Garden," while her accompaniments were played by Earl Fraser.

Miss Harriet Owens then offered a most entertaining reading, "The Honeymoon" by Jesse Lynch Williams, to the deep interest of the audience. This was followed by Mr. Fraser in a vocal group with Miss Armstrong at the piano. His spirited singing of "Down in the Forest" and "Life" evoked such applause that he gave as a third number a popular ballad, "Sunrise and You."

Miss Louise Montgomery then sang "Rain" by Pearl Curry, an unusually charming melody with an charming interpretation. She followed this with Rachmaninoff's "Floods of Spring," sung brilliantly, while the exquisite accompaniments were played by Miss Armstrong.

The room was then darkened slightly, and while thin plumes of incense made the air fragrant, the Misses Annie Tarver and Ora Bauer presented a graceful Oriental dance, to a weird musical setting by Miss Hamill. Gowned in quaint little Egyptian frocks of silk, one green and the other flame colored, strings of pearls encircling their bare ankles, the girls made a lovely picture.

After a second wonderful song group by Miss Morehouse, "One Fleeting Hour" and "Homing" by Teresa Del Riego, the program closed with two beautiful numbers by the trio, "Romance" by Debussy and "La Cinquintaine" by Gabriel Marie.

During a pleasantly informal social hour, the guests were asked to the diningroom, fragrant with sweet peas, and gathered in friendly little groups throughout the rooms while a bevy of young people, including Miss Harriet Owens, Miss Ruth Armstrong, Miss Vivian Morehouse, Miss Elizabeth Parslow, Mrs. Emmet Elliott, Miss Holly Lash, Miss Ada May Sharpless and Miss Marguerite Warner, assisted the hostesses in serving brick ice cream and delicious cake.

Ebell Club

Arousing much interest and comment among Ebell club members, is the one glimmer of light allowed to illumine their minds in regard to the "mystery program" which on Monday afternoon, June 26, will conclude the present club year.

This one ray is the fact that the long-heralded program will be presented by the Music-Drama section of which Ollimas Enlow Matthews is leader. But as to what the offering will be, who will be featured in the program or whether it will be purely local talent, remains a dark mystery. However, the fact that one of Ebells most popular sections will have charge, is enough to insure a full attendance at the Presbyterian church at 2:30 Monday afternoon, eagerly awaiting the opening number.

Blue White Diamonds For June

High above all other considerations in June-time are the DIAMONDS! And yet so little care is frequently used in their selection, strange as it may seem, that we feel like giving a bit of advice, which is more important now than ever before.

BUY ONLY BLUE-WHITE PERFECT DIAMONDS! They increase in value faster, they are standard, and there's greater satisfaction in owning one. It pays in every way.

MOORE'S SENATE CANDIDACY DISCUSSED

Jazz, Rolled Hose Doomed--Kosloff

INTEREST STIRS HERE AS S. F. MAN IN RACE

WASHINGTON, June 22.—"There is absolutely nothing to reports from San Francisco that I have decided not to run for the senate again in order to practice law in Washington," Senator Hiram Johnson, California, told the United Press today. Other than emphatically denying the report, Johnson would not comment further on the political situation in California.

The announcement from San Francisco that Charles Cadman Moore, bay city engineer and president of the Panaca-Pacific exposition, will be a candidate for the Republican nomination for United States Senator, created considerable interest and discussion in Santa Ana and Orange county today.

At a meeting attended by representatives from Los Angeles, San Diego, Riverside, San Francisco and Central California, it was decided to organize Moore club throughout the state. Those at the meeting asked Moore to run against Senator Hiram Johnson, and he consented to make the race.

Moore is a large landholder in California, but this will be his first participation in active politics. He was a candidate for Hoover delegate from California to the last Republican presidential convention.

Marshall Hale of San Francisco presided over the meeting, which was called by Captain I. N. Hibbard, also of San Francisco. The Southern California delegation was headed by Marshall Stinson. The Central California delegation was headed by Chester Rowell.

Los Angeles representatives at the San Francisco meeting included: Marshall Stinson, J. G. Mott, E. P. Clark, Ralph Arnold, F. W. Kellogg, W. W. Mines, W. I. Hollingsworth, H. M. Haldeman, John Willis Baer, and Judge Daily of Ventura.

The San Francisco delegation included Chester H. Rowell, Marshall Hale, T. T. C. Grover, Carl I. N. Hibbard, Clarence Oddie, William T. Sisson, George M. Rolph, former Gov. J. N. Gillett, Thomas S. Williams, J. F. Parkinson, George McRae, Orrin S. Henderson, Walter Johnson, J. M. Hyde, Mark Gerstle, Charles H. Bentley, Wallace M. Alexander, R. A. Crothers, A. M. Lawrence, Ralph L. Hathorn, Phil S. Teller.

Pledge Support
Pledges of support were also announced from:
Kent K. Parrott, P. M. Johnson, F. C. Fairbanks, Gavin W. Craig, W. M. Garland, John D. Fredericks, Dr. G. F. Boyard, H. M. Robinson, E. A. Dickson and Parley M. Johnson, all of Los Angeles.

Frank A. Miller of Riverside and John D. Sprickles and James McMillen of San Diego.
In connection with Moore's candidacy, the following interviews were obtained here today:
E. B. Collier—I am for Senator Johnson. I think the citrus men, especially the lemon growers, who do not support him will be very ungrateful. Senator Johnson made a wonderful fight for a tariff on citrus fruit, and my observation has been this. I do not know a great deal about Charles C. Moore, but I think he has a hard fight on hand if he expects to defeat Senator Johnson. I doubt if anyone can beat the Senator. I think someone has been joshing Mr. Moore.

Dr. R. A. Cushman—I am not a crystal-gazer, but if my guess, as a Yankee, that Senator Johnson will be re-elected, Hiram Johnson has always been heartily in favor of anything and everything designed to help this state. His stand on the League of Nations has endeared him to the people of California, and events have proved that his stand was right. His fight for the citrus industry has won him many supporters. He has made good in the past and we may trust him to make good in the future.

Dr. C. D. Ball—I think that after the August primaries, Mr. Charles C. Moore will not be a candidate for the United States senate.

'Just Wed' Sign Causes Sam to Wear Faint Pink Blush Fragment

It has been quite a few years since City Marshal Sam Jernigan was a blushing bridegroom.

But today Sam was wearing the faint pink fragment of a rejuvenated blush.

He got it over at Orange last night when a party of wedding fans confused their automobiles and hung a "Just married" sign on the back of Jernigan's car, which carried the thing all the way home to Santa Ana.

Jernigan as driving his car away from the curb in front of the Orange post office when a young man hailed him.

"Say, we thought this car belonged to another fellow and we hung a sign on it," he called.

Sam gave one startled look, then fled like a guilty motorist after a wreck.

"Anyway, there are lots of cars look like mine and nobody'll recognize me if I hunch down low enough," he reflected as the blush began to spread up over his collar.

Jernigan admitted today that nobody could have read the sign anyway, unless from an airplane, and a pretty fast one at that.

"Cause the sign stood out level in the air from the back of my car," he said.

REPORT CLUE AS TO MISSING OIL WORKER

Last seen seated beside the highway near La Mirada, Virgil A. Robinson, an oil field worker, was still on the missing list today. The report that he had been seen near La Mirada at about noon on the day he disappeared from his home at Artesia, strengthened the belief of his relatives and the authorities that the man is wandering in a demented condition.

Successful conclusion of the search for Robinson was expected shortly.

BOY SCOUTS DAY AT NEWPORT IS BIG SUCCESS

(Special to The Register)
BALBOA, June 22.—Swept to complete success on the crest of a wave of juvenile enthusiasm, the Aquatic Field day of the Boy Scout troops of Orange county was held at Newport Bay yesterday.

The visiting scouts were guests of the Newport Beach troop, one of the newest of the county. The boys on arriving at Balboa in the afternoon were treated to rides around the bay on the excursion boats Balboa and Limit, and then turned loose in a flock of row boats to enjoy themselves. Lunch was had on the ocean front. The women of both Newport Beach and Balboa assisted the boys in serving the foods and the lemonades.

After luncheon the water sports were held. The results follow:
Beatty Wins Diving
Diving—Beatty, 1st; Erhorn, 2nd; Longmire, 3rd, all of Newport Beach.
50 yard swim for juniors—Jensen, Anaheim, 1st; Belcher, Huntington Beach, 2nd; Beatty, Newport Beach, 3rd.
100 yard swim for juniors—Belcher, Huntington Beach, 1st; Beatty, Newport Beach, 2nd; Jensen, Anaheim, 3rd.
50 yard swim for seniors—Craig, 1st; Andrews, 2nd; Buell, 3rd, all of Santa Ana, Number 6.
100 yard swim for seniors—Cox, Santa Ana, Number 6, 1st; Erhorn, Newport Beach, 2nd; Middlebrook, Santa Ana, Number 6, and Jay, Newport Beach, tied for 3rd.
The freeracer race was the most exciting and thrilling of all to the boys. Each entrant carried a lighted piece of punk and a freeracer. With these he waded into the bay and swam to a finish line, where he was required to light the freeracer, the places going according to the order in which the missiles exploded. Many of the boys were unable to light their freeracers by the time they arrived at the finish line.

GUilty PLEA BY WOMAN DRIVER IN RUM CASE

Pleading guilty to a charge of driving an automobile while under the influence of intoxicating liquor, Mrs. Betty Marks, of East Newport, today asked Superior Judge Z. B. West for probation. Hearing on her application was set for Friday, June 30, at 9:30 a. m.

Today's court proceedings were brief and of a perfunctory nature. Mrs. Marks was represented in court by her attorney, Clyde Bishop. She wore dark spectacles.

Should Mrs. Marks fail to secure probation, she faces a possible sentence to state's prison, the offense to which she pleaded guilty being a felony.

Mrs. Marks was charged with the offense following her arrest by Newport Beach officers, who charged that she wedged her automobile between two sets of piling under the Southern Pacific viaduct, having, it was alleged, "missed" the driveway.

A civil action instituted by a local automobile dealer to recover the car is now pending in the superior court.

PERSHING MEMORIAL HOSPITAL IS READY

CHEYENNE, Wyo., June 22.—Wyoming's most beautiful hospital is nearing completion, the Frances Warren Pershing Memorial hospital, a monument to the wife of General John J. Pershing, and their three children, who lost their lives in a fire at the Presidio, San Francisco, August 27, 1915.

Although the \$400,000 structure is already practically completed, improvements, costing approximately \$50,000 are to be added.

The hospital has been made possible through a tax levy and through the gifts of wealthy Wyoming residents. Senator Pershing, E. Warren of Wyoming was among those to contribute toward a fund for a memorial for his daughter.

The main building contains 68 private rooms; 6 four-bed wards; 2 five-bed wards and 2 six-bed children's wards with sun porches. The hospital is modern in every respect and with the addition of future improvements, will be one of the finest in the West.

Frances Warren Pershing was one of Wyoming's leading belles and as the wife of General Pershing, who was stationed near here, was the leader in Cheyenne's social activities. Her marriage to the then Captain Pershing in Washington was one of the most brilliant events of President Roosevelt's administration.

After the tragic death of Mrs. Pershing and her three small children, the bodies were brought here and buried in the Warren lot.

BUILDING BRIEFS

Los Angeles May building permits average \$15.60 per capita.
San Diego—Group of 13 naval base buildings completed. Contracts let for 6 barracks. Base will house 1,000 men.
Los Angeles—Construction of \$1,000,000 medical college ordered.
Pittsburgh awards \$28,566 contract for street paving.
Santa Maria—Ground broken for \$28,000 concrete building.
Pomona—West Coast Theaters Co. to erect \$165,000 show house.
Elsinore to spend \$30,000 enlarging schools.
Contract let for Paso Robles National bank building.
Los Angeles—Electric Heating Co. to erect \$100,000 plant.
Santa Barbara newspaper breaks ground for \$75,000 building.
Woodland—Elks Lodge to erect \$65,000 home.
Avon—Associated Oil Co. to build 12 tanks costing \$1,000,000.
Turlock to get modern \$40,000 business building.
Napa awards \$262,777 contract for new high school.
Centerville business men to erect packing house to handle local crops.

Twice Royal

Princess Ileana is now both daughter and sister of a queen—youngest daughter of Queen Marie of Rumania and sister of the new queen of Yugoslavia who was Princess Marie.

NOTHING DOING
"Mandy, I think I's gwine put on my best clothes and go down to de theater tonight to see de chorus ladies dance."
"Rastus, lissen heah. If dat am what yuh thinks, then yuh'd better think again. Yuh ain't gwine put on nothin' to go no place no time to see nobody do nothin', never, nobow an' not at all. Does yuh understand?"

MAVERICK WOMEN'S DRESS TO GAIN IN BEAUTY

Jazz is on the toboggan. Hand-in-hand with jazz, plunging headlong to their doom, are such trifles as short skirts, rolled stockings and suggestive dressing.

No less an authority than Theodore Kosloff, famous Russian dancer, makes the statement.

Kosloff, who is on location at Balboa with a company from the Lasky studio which is filming "To Have and To Hold", under the direction of George Fitzmaurice, between scenes said today:

"America is rapidly approaching a 'morning after' disgust for her spree of sensual, negroid dancing. And Americans will soon be out of this period of dance ugliness and it will be followed by a revulsion of feeling which will probably open the way for a new and beautiful form of dance, as distinctly national as those of Russia, France, Spain and Italy.

By-Products of Jazz
"And with the passing of jazz, we will discover that other objectionable things have outlived their tad. I mean short skirts, rolled stockings and suggestive dressing. These are merely by-products of syncopeation. I doubt if women will wear more clothes than they do now, but their clothes will be beautiful, instead of graceless and ugly."

"Take short skirts as an example. The objection to them isn't that they are indecent, but that a short skirt is graceless. It is no longer a skirt, because it has lost its character of drapery. Rolled stockings are simply ugly. Either full stockings or no stockings at all would be infinitely better."

Since Kosloff joined the Paramount forces at the Lasky studio he has interested many screen stars in his theories of the dance and pantomime. Among them is Betty Compson, who is featured with Bert Lytell in "To Have and To Hold."

The company has been working for some weeks at Balboa where a sailing vessel, camouflaged to represent a 1620-model sea-faring craft, is the principal "set."

Sea Tragedy
Kosloff, by the way, worked only 15 minutes the other day. The little boat taking him out on location sprung a leak and completely saturated his trousers.

Under ordinary circumstances that would not be a matter of tremendous concern to a screen star, but it is a real tragedy when one's bifurcated garments happen to be of the mode of 1620, with about 'steen

COUNCILS PLAN JOINT SEWER DISCUSSION

The Santa Ana city council at its meeting next Monday evening will take action regarding a joint meeting with the Anaheim council at which committees will be appointed to obtain rights of way for the joint outfall sewer from Talbert road to the ocean, it became known here today.

Mayor John G. Mitchell and Clyde Bishop, special city counsel, were in conference this morning on matters concerning the sewer project. It was decided to call a joint meeting of the councils some time next week, if possible.

It is expected that the bond money will be available within the next week. Procuring of the right of way is the next important step, following which a call for bids will be made for installation of the line and treatment plant.

Arrangements will be made so that the bond buyers may send money here in different amounts as necessary funds are required for prosecution of the work, it is understood.

yards of silk, lace, silver dew-dads and similar flimsy impedimenta.

So while Betty Compson, Bert Lytell and the other members of the cast proceeded with their work, the unfortunate Kosloff went back to his room in the Palisades Inn, there to wait until his breaches dried. For, while he has suits of different patterns, that particular pair was needed for the particular sequence in the picture.

And you can't buy trousers, year 1620, at the corner haberdashery,—not in Balboa, at least.

Get Ready to Swat The Rat Saturday

Saturday has been designated as the opening day of the campaign in Santa Ana against Rats, Mice and other pests. Millions of dollars can be laid against the rat as a damager of property. Hundreds of fires and diseases are started from Rats and Mice. Let's get busy and rid the town of them. Come to us for advice in the matter.

This Is The Place To Get Rat Poison

Feed Them AZOA

AZOA is a wonderful new rat and mice exterminator that is perfectly safe to use. It is the only rat poison that is harmless to other animals. No danger of AZOA killing your pets—but when it comes to rats and mice—it simply wipes them out. Get it at this drug store at, per bottle . . . 50c

If you prefer it we have several other good poisons effective for rats and other like pests. These include Rat-Bis-cuit and Rough-on-Rats.

Parsons Drug Store

Liver Trouble Leads to Serious Ills

Blood Filter of the Body is Source of Infection

Biliousness is a sure sign of liver trouble—and any derangement of the liver is likely to lead to serious if not fatal results. Torpid liver means "bile poison" in the blood—a dangerous condition. If you have pains under the left shoulder blade, coated tongue, fickle appetite, pale, muddy complexion, or attacks of headache, your liver is probably affected. Read this strong endorsement from Mr. J. W. Strawhecker, 1608 Hunter St., Harrisburg, Pa.:

"I think I can truthfully say that Dr. A. W. Chase's K-L Pills saved my life. I suffered from bilious attacks and was so far gone nothing would help me, and any treatment I tried just made me worse. I had no control over my kidneys and my liver was so bad that my skin was yellow. I felt sure I was getting diabetes. I read in a little booklet of Dr. A. W. Chase's K-L Pills and sent for some, and this is the remedy that saved my life. Today I am a good, healthy man, bowels regular, kidneys and liver in good condition, and have a good color and splendid appetite."

Dr. A. W. Chase's remedies can be obtained at any first class drug store. To be sure of getting the genuine, see that portrait and signature of A. W. Chase, M. D., are on each box. This trade mark is your protection against imitation and substitutes.—Advertisement, 9.

CRAMPS, PAINS AND BACKACHE

St. Louis Woman Relieved by Lydia E. Pinkham's Vegetable Compound

St. Louis, Mo.—"I was bothered with cramps and pains every month, my housework all through the month. I recommend your Vegetable Compound to my friends for female troubles."—Mrs. DELLA SCHOLZ, 1412 Salisbury St., St. Louis, Mo. Just think for a moment, Lydia E. Pinkham's Vegetable Compound has been in use for nearly fifty years. It is prepared from medicinal plants, by the utmost pharmaceutical skill, and superior methods. The ingredients thus combined in the Compound correct the conditions which cause such annoying symptoms as had been troubling Mrs. Scholz. The Vegetable Compound exercises a restorative influence of the most desirable character, correcting the trouble in a gentle but efficient manner.

have cramps any more, and I can do my housework all through the month. I recommend your Vegetable Compound to my friends for female troubles."—Mrs. DELLA SCHOLZ, 1412 Salisbury St., St. Louis, Mo. The Vegetable Compound exercises a restorative influence of the most desirable character, correcting the trouble in a gentle but efficient manner.

LIONS INITIATE MOVE HERE FOR PLAYGROUNDS

The Santa Ana Lions club meeting at St. Ann's Inn today initiated a movement for the establishment of year-round supervised playgrounds in Santa Ana, when the club voted to request the Community Service League of New York to send a representative here to organize this city and create a class for teaching playground supervision. The organizer will come here without expense to the community and support of the organization for maintenance of supervised playgrounds will be by contributions of local people. A home-chosen supervisor will direct the playground activities. It is not expected that the organizer will be available before next January.

Urges Prompt Action
The action of the club followed a report by Claude Killen, member of the playgrounds committee of the club, in which it was recommended that the activity be taken up at once.

It is expected that school grounds will be utilized. That the entertainment committee has completed plans for a big evening meeting next Thursday evening, was disclosed by Mark Lacy, chairman of the entertainment committee, when he announced that a social meeting would be held at Orange county park that evening. A barbecue will be a feature. Tickets will be sold at \$1.50 each, with the surplus, if any, going into the fund being created for entertaining the state Lions' convention here next year. The evening affair is not limited to members of the club.

Ed Manning, president of the new Lions club at Huntington Beach, was present and extended an invitation to members to attend the charter night meeting of the beach city club Friday evening of next week.

The Shrine quartet, announced today as being under the management of City Marshal Sam Jernigan, entertained with a number of selections. The club is composed of Maurice Phillips, Robert Brown, Ellis Rhodes and Raymond Miles.

Carlos Hardy, attorney of Los Angeles, was the speaker, and Horace Head, president of the Orange County Bar association, was guest. Hardy spoke on the referendum measure, known as the Sample bill, coming before the voters in the state election.

DETROIT MAN TAKES GOLF TOURNEY LEAD

SANDWICH, England, June 22.—Walter Hagen of Detroit led the field of eighty golfers in the British open championship at the end of the first day's play with a card of 149.

Jim Barnes, American open champion, who was in line for a remarkably low score, fell down badly coming home in the afternoon and was tied with Taylor and Duncan, British pros, for second place with 151. Barnes took a 43 for the last nine after going out in a sensational 33.

J. Gassiat turned in a 153, as did Jack Hutchinson, last year's champion.

DESERTION IS MAN'S CHARGE IN DIVORCE

Basing his action on the alleged grounds of desertion, Willie Martin this afternoon filed suit in the superior court for divorce from Sarah Martin. He was represented by Attorney Clyde Bishop.

The alleged desertion took place December 5, 1920, according to the complaint. The Martins were married in Cordell, Oklahoma, September 13, 1904, and have a daughter, aged 16.

WIFE ACCUSES HUSBAND.
Lincoln McCullough was today charged with failing to provide for his minor children, in a complaint filed here by his wife, Annie McCullough, of Anaheim.

WOMAN ASKS DIVORCE ON DESERTION GROUND

In a divorce complaint filed in the superior court this afternoon by Maggie Willis, Charles Willis was charged with desertion and non-support, after 14 years of wedded life.

They were married in Chillicothe, Missouri, October 19, 1907, and separated February 15, 1921. The wife seeks custody of two daughters, aged 14 and 10. She is represented by Attorneys Head, Rutan and Scovel.

ADmits BIGAMY AS SHE SEEKS ANNULMENT

Admitting that she already had one husband living and not divorced at the time she married husband No. 2, Dorothy M. Linares today filed suit in the superior court here to annul her second marriage, that to William G. Wigginton.

The alleged bigamous marriage took place at San Bernardino on December 29, 1918, while the bride was still lawfully wedded, she says, to Alfred Linares.

Mrs. Linares is represented in her suit by Attorney Harold Ida Cruzan, of Los Angeles.

CAMPFIRE GIRLS TO RETURN HOME TODAY

Members of the Santa Ana Toheha Campfire girls who have been in camp in Coldwater canyon, near Glen Ivy Mineral Hot Springs, for several days, were expected to return home today. They have been enjoying themselves to the utmost.

Mrs. Fred Finat and Mr. and Mrs. E. A. Knudson are in charge of the group. Other members of the party are Evelyn Farnsworth, Lucile Newcom, Florine Meyer, Ruth Winton, Elizabeth Beall, Rachel Stewart, Mary Dunstan, Dorothy Clarkson, Francis Knudson, Gertrude Smith, Gladys Smith and Gladys and Bernice Finat.

WOMAN SAYS HUSBAND CALLED HER FAT, UGLY

When Albertino Uniges told his wife, as she alleges, that she was fat and ugly and that he would not be seen in public with her, she suffered deeply. But her early training and religious nature made her keep her wounded feelings secret, she declared this afternoon in her suit for divorce, filed in the superior court through Attorney Clara Cushman.

Continued alleged abuses, however, convinced Mrs. Uniges that the divorce courts offered her the only relief in sight. She sued on the grounds of cruelty and failure to provide.

The couple were married near Tustin, July 3, 1919. They have one child, an infant, one month old.

VOTE REGISTRATION TOTAL NOW 21,044

Registration, of Orange county voters, as revealed in figures announced by County Clerk J. M. Backs this afternoon, reached a total of 21,044 for this year, up to June 22.

This number indicates that approximately two-thirds of the expected registration this year is already "in." Backs had previously estimated a probable registration of 32,000.

Considerably more than half of the registrations to date are Republican, that party numbering 13,064. The Democrats are next in line with 4,249.

Other figures are as follows: Decline to state, 2510, Prohibition 726, Socialist 246, Independent 157, Non-Partisan 75, Progressive 16, Progressive Republican 4, Labor party 3.

There are at least 10 aviation companies operating lines in Germany.

Why walk when we carry 5 passengers 20 blocks for 50 cents? Own Taxi. Phone 1486—415 N. Sycamore.

MAN HURT IN TRUCK CRASH IS RECOVERING

C. H. Fallogg, of Los Angeles, who was injured when a truck he was driving collided with another truck near San Juan Capistrano, was reported to be improving today at the Community hospital.

RANCH TRADED FOR 2 RESIDENCES IN CITY

I. J. Owens, who is active in subdivision work in Santa Ana and Costa Mesa, has acquired a mountain ranch of 120 acres near San Bernardino. The property was secured from Harry Johnson, of Pomona, the latter taking two residences on Artesia street belonging to Owens.

BIGAMY SUSPECT FACES THREAT OF DEATH

ASBURY PARK, N. Y., June 22.—Donald Stewart, now in custody in Los Angeles, was threatened with death today by Dr. Edwin P. Osbaldeston, father of one of Stewart's alleged wives.

Dr. Osbaldeston made the threat after reading an account of Stewart's arrest.

"If I ever glimpse him, I will shoot him," he said. "No jury would convict me for shooting such a man."

According to New York authorities, Stewart married Mary Barbara James, November 8, 1918, in Wilmington, Del. With his wife, whom he referred to as a sister, Stewart rented rooms in the Osbaldeston home in New York City. After a short time he proposed marriage to Miss Ethel Monica Turner Osbaldeston. They were married soon afterwards.

When it was discovered that the woman Stewart referred to as his "sister" was his wife, his second wife placed the matter before District Attorney Banton in New York City. Later she withdrew the charge and the couple disappeared, leaving the first Mrs. Stewart here.

They were next heard of in Los Angeles and the arrest of Stewart occurred recently.

EDUCATION SURVEY AROUSES INTEREST

Interest was expressed in Santa Ana educational circles today over the announcement that fifteen prominent educators of California had been named to make a survey of conditions regarding secondary education, the information to be used by the California High School Teachers' association.

The reports of this committee will form a basis of a more thorough and more efficient system of education in the secondary grades, according to Horace M. Rebok, Santa Monica, president of the association.

The survey will cover all grades from the seventh to the junior college. The committee is said to have the active co-operation of the University of California, Stanford university and the University of California, Southern branch.

Prof. Charles E. Rugh, acting director of research, University of California, is chairman. The other members of the committee are instructors in schools and colleges throughout the state.

MILK DEALER QUILTS; TWO CHARGES DROPPED

James N. Ellis, former milk dealer, having retired from business here, two charges that he had violated the dairy laws were dismissed today by Justice J. B. Cox, in whose court they were set for trial at 2 p. m.

The cases were dropped after N. Voler, representing the California Milk Dealers' and Distributors' association, signified a desire to withdraw prosecution of Ellis, who had been accused of selling milk in bottles bearing the label of other dairies.

Ellis was, until recently, proprietor of a dairy on North Garfield street, this city.

MAN HURT IN TRUCK CRASH IS RECOVERING

C. H. Fallogg, of Los Angeles, who was injured when a truck he was driving collided with another truck near San Juan Capistrano, was reported to be improving today at the Community hospital.

RANCH TRADED FOR 2 RESIDENCES IN CITY

I. J. Owens, who is active in subdivision work in Santa Ana and Costa Mesa, has acquired a mountain ranch of 120 acres near San Bernardino. The property was secured from Harry Johnson, of Pomona, the latter taking two residences on Artesia street belonging to Owens.

THEATERS

RUTH RENICK'S SOUTH SEA ISLAND PICTURE, "THE FIRE BRIDE," IS BOOKED BY E. D. YOST.

Ruth Renick's feature, "The Fire Bride," the first motion picture ever made entirely in Tahiti, the famous South Sea Island, is to be screened at the Yost theater, next Tuesday, June 27, according to announcement made here today by E. D. Yost, president of the Yost theaters company.

Miss Renick is pleasantly remembered by patrons of the Yost who have made frequent inquiries regarding the picture since her appearance here in person. Many who are not "fans," but who attended the opening of the new Yost theater last March will recall the dainty little blonde girl who came down from Hollywood, as the personal representative of all screenland, to extend greetings to Mr. Yost upon his enterprise in giving Santa Ana such a fine playhouse.

"The Fire Bride" is Ruth Renick's first starring vehicle, although she has been a featured player in many notable productions since her debut before the camera a little over two years ago.

Owing to contracts made previous to the release of "The Fire Bride," Yost was unable to book the picture for more than one night for its first run here.

Miss Renick, who has been busy at various studios since her personal appearance here, has been engaged as leading lady in the Wesley Barry feature, "From Rags to Riches," now being filmed.

IT PAYS TO ADVERTISE

If You Doubt It, Marc Todd, of the West End, Has Something to Say.

BY FRANCES DEANER

"I didn't know until tonight how many people read the theatrical department of the Register," said Marc R. Todd, general assistant manager of the West End theater last night between explanations to the effect:

"No—it opens tomorrow night. It was a mistake. We're sorry, but come tomorrow night."

Score of us went to the West End last night to see "Bought and Paid For." And it does not open until tonight, it seems.

Through one of those inadvertent mix-ups that occur now and then, the advance "copy" which has been coming to the theatrical desk and the advertising department for the past week has stated consistently that "Bought and Paid For" was to be screened Wednesday, Thursday and Friday nights. It should have read Thursday, Friday and Saturday nights.

And that's how it happened. "I wish I had kept count of the persons who came to the theater tonight expecting to see 'Bought and Paid For,'" declared Mr. Todd.

"The figures would have made a interesting reading for The Register's advertising department."

He didn't say it might interest the theatrical reporter, but it would, just the same.

And tonight, really and truly, unless the film is lost, or the truck breaks down, or there is a typhoon, or a break in the ice jam river, we are to see the George Broadhurst's stage success "Bought and Paid For" at the West End.

**Are Your
Grounds in
Keeping With
Your Home?****How About
Your Garage?**

Does your garage look to be in keeping with your home? You will find many of the prettiest homes in the city have garages that follow the style of the house. A new garage will, in many cases, add greatly to the appearance and value of a property, and in building one the cost is small in comparison to the utility by making it large enough for a tool shed or storeroom.

Why not come out and choose a structure that will add so much to the convenience and appearance of your place. You will find many attractive designs in our Photograph-Plan System.

**Ours—
A Complete Service**

This Service shows the pictures and gives plans and specifications of garages, barns, etc., as well as hundreds of homes. And still better there is coupled up with it our own service that takes care of all the construction needs of your building. For instance, lumber, cement, plaster, metal lath, roofing, paint, and builders' hardware, and in addition to this our equipment for handling all details of cabinet work. Those who have used this system say it is the simplest and most economical method of building. Why not investigate?

**INDIAN EXHIBIT
WILL BE HELD
AT LAGUNA**

An Indian Museum Exposition will be opened at the Pomona college building, Laguna Beach, next Saturday afternoon with an exhibition of the arts and crafts of the American Indian, and a collection of photographic prints of Indian types and studies by Edward S. Curtis, it was announced today.

Saturday evening Curtis will give a lecture on the "North American Indian, His Customs, Religion and Problems." Slides will illustrate the lecture, which will feature Curtis' twenty years of work among the Indians.

Curtis is noted as a photographic artist and ethnologist. The late Colonel Roosevelt highly praised Curtis' photographs.

Called Photo-Historian. Many of the prints in this collection have served as illustrations for Curtis' book on the North American Indian.

Curtis has been called "the photo-historian of a vanishing race." He has prepared a photo history of the North American Indian that has been considered the most stupendous undertaking in the making of books since the King James edition of the Bible. All phases are pictured—the Indians in their environment, the types of the old and young, their primitive home structures, their hand crafts, their ceremonies, games and customs with an object first to truth, then to art composition. The text and pictures interpret each other.

The exposition is humanitarian as well as educational and recreational in its aim. One of its objects is to make known the work of the Indian Welfare League and add to its membership.

The primary object of the league is to encourage all efforts which make for the permanent good of the American Indian. This work is accomplished through educational and legislative channels. The executive committee of the league is made up of persons well known for humanitarian, social, welfare, educational or literary work. Dr. John A. Comstock, director of the Southwest museum of Los Angeles, is its president.

The Indian Welfare League has its headquarters at the Southwest museum, Los Angeles, but its membership bids fair to reach from coast to coast.

ASPIRIN

Name "Bayer" on Genuine

Say "Bayer" when you buy Aspirin. Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty-two years and proved safe by millions for colds, headache, toothache, earache, neuralgia, lumbago, rheumatism, neuritis, and for pain in general. Accept only "Bayer" package which contains proper directions. Handy boxes of twelve tablets cost a few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark of Bayer Manufacturing of Monocetate of Salicylic acid.

**NEW BUNGALOWS HERE
IN PURCHASE DEALS**

W. H. Dixon, 709 East Chestnut avenue, has sold to Mrs. Theresa and Leon R. McMullen a new five-room bungalow at 518 South Garnsey street and to C. R. Gilbert a new five-room bungalow at 510 South Parton street, the consideration being \$5250 and \$5500 respectively.

Dixon has started construction of two more houses, one at 315 South Flower street and the other at 522 South Garnsey street.

**CATHOLICS WILL
HOLD CEREMONY
TOMORROW**

Nineteen young women who will consecrate their lives to the sisterhood of St. Joseph today were completing their eight-day retreat at the convent, or Mother House, at Orange, preparatory to making their vows at the ceremonies to be held at St. Joseph's Catholic church here at 10 a. m. tomorrow.

The vows usually are made at a convent and it is declared that the ceremonies that will take place tomorrow are the first of the kind ever to have been held in a church in the West.

Catholics all over the county today were making preparation to attend the services, which mark an epoch in the history of the church in this county.

Bishop to Accept Vows. The right Rev. John J. Cantwell, bishop of the Los Angeles and Monterey diocese, will be present to accept the vows of the young women, ten of whom will receive the garb of sisterhood, fourteen will make their first vows and five their last, the latter vows coming at the end of seven years of preparation. The Most Reverend Archbishop Hanna of San Francisco is expected here to take part in the ceremonies.

Priests from various parts of the Southland will be present.

In the afternoon the Mother House of the Sisters of St. Joseph, recently established at Orange, at the corner of La Veta and Bantavia avenues, will receive the blessing of the bishop. The young women who pledge and accept vows tomorrow will complete their novitiate at the Mother House.

Remodeling of St. Joseph's church has not been completed, but the work has progressed far enough to make the enlarged church available for the ceremonies. Although the seating capacity of the church has been nearly doubled, it is expected that there will be insufficient room to accommodate all who will desire to be present.

**TAVERN AT ARCH
BEACH TO OPEN
ITS SEASON**

The new management of Arch Beach Tavern, at Laguna Beach, announces the opening of the season, and will hold a "house warming" next Saturday evening, June 24, from 7:30 until 12, on which occasion everyone is invited to partake of the hospitalities offered, as guests of the hotel. On this occasion there will be dancing, refreshments and other forms of amusement, and Orange county people will be permitted to meet several of their favorite screen stars, who have been invited to be present.

The Tavern has recently changed ownership, and considerable money has been expended in remodeling, redecorating, refurnishing, etc., making it one of the shov places of Orange county and a place where everyone, including the kiddies, are welcome, and where genuine hospitality will be offered, together with homelike surroundings.

There are thirty-five rooms in addition to a private cottage for families or large parties, and all rooms have hot and cold water and a number are equipped with private bath. Suites of two, three and four rooms with bath may also be secured. The dining room has been arranged to accommodate one hundred guests. There are lounging rooms and private dining rooms, in addition to a large screened porch where the view of ocean and mountains cannot be surpassed. Showers have also been provided for the convenience of all guests.

Owing to the late purchase of the property, it has been impossible to complete all improvements. A large crew of men are completing interior work this week, after which they will build a garage to accommodate a number of cars, children's play ground, tea rooms, retaining walls, as well as beautifying the grounds surrounding the tavern. The management advises if the residents of Orange county will support the movement, that a large open air dance floor will be constructed and dinner dances will be arranged as often during the week as is necessary to accommodate its patrons, but for the present all dances will be held in the dining room.

There are numerous forms of enjoyment to be indulged in, such as fishing, bathing and scenic beach trips, while deep sea fishing can be arranged on reasonable notice.

To be sure of getting the genuine, see that portrait and signature of Dr. A. W. Chase is on the box—a trademark that protects you against imitations.—Advertisement.

**WIFE UNWITTING
AID TO POLICE
AS MAN HELD**

The little telegraph office at Laguna Beach proved a trap for E. L. Reeve, alias A. B. Breen, at far-away Butte, Montana, it was learned here today following the arrest of Reeve on charges of writing worthless checks in payment for automobiles, his entire transactions having involved, it was said, approximately \$100,000.

An exchange of code telegrams between Reeve, at Butte, and his wife, at Laguna Beach, betrayed the whereabouts of the former to investigators A. J. Ross and Robert E. Ferguson, of the Pacific Coast Automobile conference.

Arrest Follows. Reeve was thereupon arrested by Butte officers at the request of the Long Beach police and Los Angeles county authorities.

Reeve is charged with having issued worthless checks to the amount of \$25,000, by which he secured possession of automobiles valued at approximately \$75,000.

His alleged system of buying a new car, driving it to a city some distance from where it was purchased, and there selling the car outright or trading it for another and, if necessary, paying the difference with another bogus check, was said to have placed him beyond reach of prosecution on account of the automobiles.

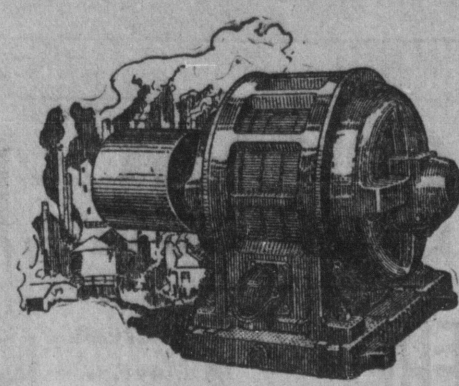

Active in Many Cities. It was stated, however, that he would be prosecuted because of the alleged spurious checks, which he was said to have passed in Los Angeles, Glendale and in other coast and Western cities.

Ross and Ferguson followed Mrs. Reeve from Long Beach to Laguna Beach, where she was said to have received the code message from her husband and to have answered it in kind.

**Electrical
and Industrial
Efficiency**

INDUSTRIAL efficiency is becoming more and more dependent upon scientific electrification. The success of electrification depends largely upon the responsibility and competence of the electrical contractor who does the job. Realizing the importance of safeguarding standards of electrical materials and service, the Pacific States Electric Company distributes its materials and appliances through electrical engineers and contractors who are qualified as to their responsibility and technical competence.

These standard materials and appliances are identified by the "check" seal, reproduced in this advertisement.

Because we use standard materials; because our policy of employing only good workmanship and charging fair prices is consistent with "check" seal standards, we gladly use it as our means of identification.

You will enjoy the new booklet "The Electrical How for Householders," which lists a variety of standard electrical materials and appliances, and describes their use in the course of a typical day in an electrified home. We will supply you a copy free upon request.

Look for this Seal.

\$1,700,000 SCHOOL BUILDING PROGRAM IN COUNTY REVEALED

VAST SUM INVESTED HERE AS SUBDIVISION LOTS IN AND NEAR CITY DEMANDED

That investments totaling many thousands of dollars have been made here in the past six months by those interested in subdivision properties was made clear when those in charge of the respective subdivisions in and near Santa Ana announced that buying continues active and that many dwellings are being erected by purchasers.

Asbury Turner, subdivider of Brentwood square, reported that out of a total of fifty-seven lots, only nine remain unsold. The price of the lots sold by Turner ranged from \$850 to \$3,300. Turner said the total amount of his realty sales to date was about \$65,000.

"One dwelling is completed," said Turner, "and I have assurances that purchasers of lots will begin building between twelve and fifteen additional houses within the next sixty days."

Turner said that one or two houses to be erected in Brentwood square will cost between \$9,000 and \$10,000. Later he expects to build a home for himself at a cost of about \$10,000. Building restrictions range from \$2,500 to \$3,500. Turner's campaign started in January. Virtually all lots were sold in six months.

Andrew Cock, subdivider of Chanticleer Manor, announced that Le Berthon and Molchan, in charge of his subdivision, have disposed of twenty half-acre plots and thirty-one lots, these sales approximating \$54,000.

BY ELWOOD J. MUNGER.

The Wucherer-Gray interests, drilling two test wells in the Irvine hills, south of Newport, have reached a depth of 4200 feet on one well and 3600 on another. The deep well at 4200 is showing a crown shale and is looking about the same as it did at 4000 feet. The next 300 feet will determine the fate of the Wucherer-Gray test well.

The Long Beach Consolidated Oil company has succeeded in getting its No. 1 at Newport down to 3900 feet. At this depth the tubing will be put in and a production test will be made. Recent showings led to the stopping of drilling and making the production test now.

Seal Beach is all expectation and excitement now. The Henry D. Dabney syndicate has set a string of ten-inch in its test well some-

Local Creamery Company To Move Into New Plant Early Next Month

The Excelsior Creamery company today was directing plans for moving into its new plant on East First street early next month.

The building, equipment and general arrangement make this plant what is declared to be one of the best of its kind in the state. The company, it is said, is spending approximately \$100,000 in providing itself with a plant that will materially facilitate the handling of milk and cream and at the same time provide the very best sanitary conditions.

Retailing of Excelsior products will continue at the company's place on the northeast corner of Main and First streets. The ice cream manufacturing plant of the company will be transferred from the Taylor factory to the new structure, it being the intention of the company to consolidate its various departments in the new building.

Installation of new equipment now is in progress in the East First street structure. It was expected by the company that the new plant would be in operation by the first day of July, but the usual delay in completion of finishing touches incident to such improvement will make it impossible for the company to transfer the first or second week in July, its operations to that point before according to W. D. Ranney, manager.

U. P. STARTS DRIVE TO BOOST SOUTHLAND AS BIG PLAYGROUND

The Union Pacific railroad is doing its share toward bringing Southern California before the Eastern public as "The All Year Playground of America."

This became known here today when C. S. Browne, local representative of the railroad, received a copy of "Sunny Southern California," an attractive brochure, finely illustrated, a first edition of 35,000 copies of which the Union Pacific has just issued.

The folder will be generally distributed throughout the United States as a part of the railroad's campaign to advertise the advantages of the Southland as a recreation center.

The two covers of the folder are from the brush of Guy Parker Goodwin. One is descriptive of "California in Summer" and the other of "California in Winter."

STATE BUILDING ACTIVITY NOW AT HIGH PEAK

Declaring that real estate conditions and building activities in California continue on the upgrade, C. C. Tatum, president of the California Real Estate association, today cited the following as being in the high peak of building activities:

"Building permits in San Francisco since the first of the year total more than \$20,000,000, the largest five months' total in the history of San Francisco."

"The Imperial irrigation district in Imperial county has voted \$7,500,000 for improvements and construction."

"The city of Los Angeles has voted \$17,400,000 for new school construction."

"Lodi, center of the Tokay grape industry, has a total of \$750,000 in building permits since the first of the year."

Berkeley in Big Total. "Berkeley has a total of building permits of \$2,500,000 in five months. Modesto building permit total the highest in history."

"Oakland reports a new seventeen-story office building for the Oakland Bank of Savings and that \$3,000,000 worth of new business structures are planned for the heart of the business district."

"Oakland officials declare all records in residential construction have been shattered."

"The Southern Pacific company has received twenty new oil-burning engines, the first shipment of a total of fifty engines to handle the increased agricultural production of California."

"The Bank of Italy is erecting a new \$400,000 building at Sacramento and a \$2,000,000 building at Los Angeles."

"\$5,000,000 Hotel For L. A. "The new \$5,000,000 Biltmore hotel is going up in Los Angeles."

"The city of Santa Rosa voted for a \$375,000 school bond issue."

"At Eureka, the Union Oil company has constructed a \$100,000 plant."

"The Union Pacific is spending nearly all of its \$29,000,000 in improvements in Los Angeles and Southern California."

"The Elks are building a \$500,000 home at Sacramento."

"East San Diego is to have a new \$100,000 hotel."

"Building permits at Long Beach are averaging more than \$1,500,000."

SUBDIVISION AT NEWPORT NOW UNDER WAY

Beach Paving Improvements Expected to Result In Building Activity

With the renewal of proceedings for paving streets at Newport Beach and covering the alleys there with layers of earth, property owners of that city today were looking forward to the final completion of the big improvement work in anticipation of unusual activity in property and building there next winter and summer.

One of the direct results of the contemplated work, according to reports, is the preparation to place a new subdivision on the market. The property is at the Balboa end of the sandspit.

W. W. Hoy, civil engineer of this city, today was engaged in preparation of a subdivision plot of three and a half acres for Charles O. Henry, of Los Angeles. The tract will be subdivided into forty-four lots, which will be offered in a very short time, according to Hoy.

The subdivision is at the present end of Central avenue, which will be continued through the tract. Another street will be opened through the property. Henry owns other acreage adjoining that will be available for subdivision later.

Paving of the streets and improving of the alleys within the assessment district to be created for paving is considered an important step in advance. It will make for better traffic and parking conveniences and paved streets will be an incentive to the erection of cottages on vacant lots that now are more or less inaccessible, it is pointed out by boosters.

INN DINING ROOM AGAIN OPENS DOORS

The dining room of St. Ann's Inn was opened again today.

It was with considerable interest that the announcement of the reopening was received, and the influx of patrons was gratifying. Manager E. R. Cooper announced that a new chef had been obtained and competent service would be maintained.

With the announcement, members of clubs and civic organizations were preparing to take advantage of the opportunity. Several clubs plan summer dances, it was understood, with the spacious dining room as the location.

Although the summer months always produce a slight lull in the hotel trade, Manager Cooper was optimistic concerning the success of the hotel and the dining service.

AWARD CONTRACT FOR NEW \$13,000 PLANT

O. V. Noble, of Balboa, today was making plans for starting building operations at once on the new structure to be erected here by George Ketcher for the Roehm-Sylvester company, wholesalers of tobacco. Noble has been awarded the contract on his bid approximating \$13,000.

The plant will be erected on the north side of Fourth street directly east of the Santa Fe tracks.

Know Your City Test Asks Many Questions About S.A.

Do you know your city? Frequently it is found that local persons cannot answer the simplest questions concerning the activities in their city.

Here are a series of questions concerning Santa Ana that should be answered from information gleaned from the press and other sources, for they often are mentioned in some form or other. For your own satisfaction and information take your pencil and jot down the answers to the questions. See how many you can answer correctly.

The questions follow:

Give the date of the incorporation of city of Santa Ana. Name members of board of trustees. Who is president of board of trustees? Who is the city clerk?

Name members of the board of health. Who is the health officer? Give name of community nurse.

Give names of the pastors of the churches.

Name the library board. Who is the librarian? How many books are in the library?

Who is the principal at the high school? How many teachers at the high school? How many students?

Who is the principal of each grammar school? How many teachers in the grammar schools? How many students in the grammar schools? What increase in enrollment last year at the high school and junior college?

What increase in enrollment last year in the grammar schools?

Where is the city park? What are its boundaries (the nearest streets)?

Name the directors of the Merchants' and Manufacturers' association. Who is the secretary?

Who is the city engineer? Name the building inspector. Who is the electrical inspector?

What was the population of Santa Ana at last census?

How many square miles in the city of Santa Ana?

How many carloads of walnuts were shipped from Santa Ana last season?

What is the amount of the bank deposits?

How many water connections were made last year?

Give amount of building permits last month.

What is the assessed valuation of city of Santa Ana?

What is the city's tax rate?

S. A. WOMAN BUYS BUSINESS LOT AT ORANGE

Purchase by Mrs. Ida Kredel, of Santa Ana, of the Orange Inn property on West Chapman street, Orange, is believed by Orange residents to presage the construction of another business building in the block between Olive and Lemon streets, it was learned here today.

The property was purchased from H. J. Grafton, of Los Angeles, at a reported consideration of \$22,000. Howard O. Williams, realtor of Orange, negotiated the transaction.

The purchase was made for the Kredel estate, which owns all of the south side frontage in the block except a fifty-foot lot on the corner of Chapman and Lemon streets, occupied by the Mansur Motor company and owned by A. R. Tothman. A one-story brick building is now under construction on the lot adjoining that just purchased by Mrs. Kredel. It is understood that she has leased the store rooms to the Crown Stage company and the Chevrolet agency.

It is reported that Mr. Kredel contemplates the erection of a two-story structure on her new property, with the second floor devoted to apartments.

Other sales in Orange and that vicinity reported by Williams include the following: Harper Packing company property on Chapman street, west of the Santa Fe tracks, to Harvey Garber, of Orange; 11-acre orange grove west of the Santa Ana river to B. R. Douglas; residence property at 340 North Cambridge street to William Trust; 18-acre peach grove on Ontario to R. A. Sawyer; residence property at 288 South Cambridge street to Tony Mollica; five-acre orange grove at Olive to C. Carlson; modern residence at the corner of Booth and Walnut streets, Santa Ana, to Thomas Eadington.

SELLS PROPERTY ON FIFTH, BUYS ON ROSS

N. H. Leonard, who recently sold his property on the northwest corner of Fifth street and Van Ness avenue to Oscar Rosenbaum, of San Juan Capistrano, has purchased the residence at 620 North Ross street. He bought from W. B. Blakeman.

C. W. Holcombe, of Casey and Holcombe, realtors, departed today for San Francisco, accompanied by Mrs. Holcombe. Mr. and Mrs. Holcombe returned last Tuesday from a week's vacation at Coronado.

Who says that Millions NOW Living Will Never Die? Watch for announcement in Saturday's paper.

NEW DRILLING MOVES ON AT FAIRVIEW AND ON MESA NEAR BEACH

According to the weekly bulletin of the Department of Petroleum and Gas, State Mining Bureau, two new wells started drilling for oil in what the state designates as the Newport field, during the week ending June 17. One of these wells is reported by the state at the Fairview Oil company lease in section 4, township 6, range 10. This section is located west of Fairview.

The other well is reported as started by the Newport Oil and Refining company in section 28, township 6, range 10, which section includes tidelands and the edge of the mesa north of Newport Beach.

Others wells started drilling for oil during the week as listed are: Globe Petroleum corporation, Olig Crude Oil company, Amalgamated Oil company, Standard Oil company, all at Huntington Beach.

REALTORS OF COUNTY IN MEET TOMORROW

Santa Ana and Orange county realtors identified with the realty boards in the county today were making preparations to be present at the luncheon of the Santa Ana Realty board at St. Ann's Inn tomorrow, when plans for entertaining the 1922 convention of the California Real Estate association will be discussed. The convention will be held here December 7, 8 and 9.

C. C. Tatum, president, and Glenn Willaman, secretary of the state organization will be here to confer with the county men. The state association will arrange the program for the convention and the entertainment of delegates will be a duty devolving on the realtors of the county.

It is expected that 500 or more real estate dealers of the state will be present at the convention here.

S. A. REALTOR LEAVES ON VACATION TO S. F.

C. W. Holcombe, of Casey and Holcombe, realtors, departed today for San Francisco, accompanied by Mrs. Holcombe. Mr. and Mrs. Holcombe returned last Tuesday from a week's vacation at Coronado.

Who says that Millions NOW Living Will Never Die? Watch for announcement in Saturday's paper.

EDUCATIONAL STRUCTURES PROGRAM UNDER WAY SETS RECORD PROSPERITY PACE

Setting a pace for the unprecedented march of building progress throughout the section and proving that during this era the educational movement always has been near the van, figures made public here today by R. P. Mitchell, county superintendent of schools, disclosed a record-breaking construction program for Orange county schools totalling \$1,700,000, virtually all of which either is under way now or is assured.

Almost \$1,000,000 of the amount, it was shown, will go toward improvements in the higher educational field, the high schools.

"The figures are staggering," Mitchell said, "but they lend indisputable statistics to the argument that Orange county is in the midst of a remarkable and a tremendous growth."

"Where there are schools there is prosperity and where the demand is such that there must be more and more educational institutions, it is logical that the district is forging ahead not only in wealth but in population."

"To me the enormous school building total verifies beyond a shadow of a doubt all that has been said about the general development and advancement of the communities of the county."

21 Districts Active. Sixteen county districts, the figures show, are included in the elementary schools improvement program and five are found in the high school column.

An idea of the magnitude of the building program for the high schools is conveyed by Mitchell's announcement that only five cities in the county are concerned.

Anaheim is just completing a group of buildings at an expenditure of \$160,000. A new administration building, manual arts building and physical education building are included.

Work is well under way on the administration building at Fullerton at a cost of \$100,000.

Improvements at Orange, including a new administration building, will reach a total of \$350,000.

To Build New School. The Garden Grove district has received \$125,000 to purchase a site and erect a high school structure there.

Tustin several months ago voted \$250,000 for a site and a new building. Construction is well under way.

Santa Ana's recent bond issue of \$250,000 places this city in front in the grammar school division.

The advisability of calling for an \$80,000 school bond issue at Garden Grove has been discussed by the school board there.

Brea has begun a \$20,000 program under a special tax levied for a kindergarten and two additional classrooms.

Delhi is considering the advisability of calling for a bond issue for a new school to cost approximately \$40,000.

El Modena, ranking as the latest in line, voted \$55,000 for a new building last Tuesday.

Workmen are repairing the El Toro school at a cost of \$1,000.

Following an overwhelming bond victory, the Harper-Fairview district has called for bids on a new school to cost \$50,000.

The Fountain Valley school (Talbert) is being repaired at an estimated expenditure of \$500.

Laguna school building alterations will reach a total of about \$200.

Newport Beach recently voted \$65,000 for a new structure.

An additional classroom, with other facilities, will total \$5,000 at Olive.

Orange Active. The contract has been let for a new \$80,000 grammar school structure at Orange.

A \$40,000 building is under way at Orange.

A new addition has been built at Paulmarino at an expenditure of \$13,000.

Two additional classrooms and other improvements have been

(Continued on Page Ten)

RUSH PLANS FOR \$40,000 DELHI BONDS VOTE

Final plans for calling a bond election to authorize the expenditure of \$40,000 for the erection of a new grammar school at Delhi are expected to be made tomorrow night at a meeting of the school trustees, according to Andrew Cock, clerk of the board.

"We desire to call an election as soon as possible," said Cock, "and the voters approve the bond issue, as we believe they will, we hope to be able to complete the new grammar school by Christmas."

"If the voters endorse the project, it is probable that the new Delhi school will be of brick or reinforced concrete and will contain four rooms. It was thought that the Spanish or Mission type would be desirable."

"The members of the board felt that it would be necessary to purchase at least four or five acres of ground, but no exact location has been decided upon. We thought it would be well to build the foundation of the school sufficiently strong, so that a second story could be added later, if additional growth of the district justifies this."

Cock said that a preliminary survey of the district shows a majority of the voters are in favor of the improvement. The rapid growth of the South Main district was given as one of the reasons for the proposed school improvements.

JUDGE KERRIGAN OUT FOR SUPREME COURT

SAN FRANCISCO, June 22.—Judge Frank H. Kerrigan, Associate Justice of the District Court of Appeals for the first district of California, this week announced himself as a candidate for one of the two long terms as Associate Justice of the Supreme court of California, to be filled at the coming election.

Judge Kerrigan has served twenty-eight years on the bench, sixteen years of which time has been spent in his present office. He has also sat, at various times, in the Supreme Court, taking the places of judges who have been absent through sickness or other reasons.

INVEST BIG SUM HERE AS LOTS IN DEMAND

(Continued from Page Nine)

been active in the past thirty days. Twenty-nine lots have been sold. Price said, these ranging in price from \$450 to \$1,150. Price, who is a builder as well as a subdivider, has erected several houses on the tract and plans to develop about one-half the acreage himself.

Plans Lighting System

Among other improvements, Price will install an ornamental lighting system and the entire South Main street frontage has been attractively set off with a low rock wall. Potted plants and palms are being added to beautify the tract.

I. J. Owens, owner and builder of Apricot subdivision on East First street, is building twenty houses to sell for \$3,750 each. Ten of these houses are virtually completed, Owens said, and all will be finished by September. The houses, which contain five and six rooms, are strictly modern and represent an investment of \$70,000.

"There is an excellent demand for subdivision properties," said Owens, "and I find that we can hardly build the houses fast enough to meet the demand. Three of the houses are now occupied and a fourth will soon be ready for occupancy. All are equipped with garages, driveways and cement walks and other conveniences."

L. K. Strong, subdivider of thirty-four lots at Seventeenth and Rosa streets, reported that sixteen lots have been sold for a total of about \$25,000. Seven of the lots were sold with the understanding that building operations would start within thirty days.

"Gas and sewer connections have been completed," said Strong, "and it is expected paving will start next week. The prices of the lots range from \$1,500 to \$2,500 and no building will be erected to cost less than \$4,000. Interest is keen and buying has been spirited."

Freeman H. Bloodgood, president of the Santa Ana Realty board, said four lots have been sold in the Walnut Villa tract, Tenth and Townier streets, and other sales are in immediate prospect.

"There are fourteen lots," said Bloodgood, "each having three or more full-bearing walnut trees, interspersed with home orchards. Tom Elliott will build two modern residences in this tract, to cost \$5,000 each. One is virtually completed and another will start within a week or two."

The price of the Walnut Villa lots range from \$1,250 to \$1,400. Bloodgood said he expected to erect a home in the tract at some future date.

"There is the keenest interest in subdivisions in and near Santa Ana," said Bloodgood, "and there is every reason to believe this activity will continue for some time. We are now getting many newcomers from Arizona, Texas, New Mexico and other states and inquiries are received daily from those seeking desirable locations."

"In this connection, there is a growing demand for larger lots by those who wish to locate just outside the city. Activity continues brisk at Costa Mesa and Newport Heights and a number of sales have been reported."

"There are a great many persons who desire to obtain farming plots ranging from one-half acre to three and five acres, and they find the cutting districts ideal for this purpose. It is not at all improbable that M. H. Whittier, who recently purchased 411 acres in the Fairview district, will divide some of the property so that the man of average means can purchase a little farm on reasonable terms."

Reports received from Costa Mesa and Newport Heights indicate that Huntington Beach oil workers and others are keenly interested in half-acre and two-and-a-half-acre plots in that vicinity. Numerous sales were reported.

COUNTY SCHOOL CONSTRUCTION SETS MARK

(Continued from Page Nine)

made at Tustin at a cost of \$12,000.

Construction activities have been started on a new \$21,000 school house at Cypress.

"The extensive plans," Mitchell stated, "have been unprecedented during my experience as superintendent of county schools. It is interesting to note that virtually no bond issues for new schools have been defeated in the county during the tremendous expansion period."

"With the further growth of the communities seemingly assured, I am of the opinion that the building program will continue unabated."

STATE BUILDING ACTIVITY AT PEAK

(Continued from Page Nine)

monthly.

"Work has started on a new hotel at Santa Ana to cost \$150,000."

"Building permits in Los Angeles for the first five months in 1922 have exceeded \$45,000,000 and indicate that the yearly total will be more than \$100,000,000. Los Angeles is retaining its position as third in building permits in the United States and is crowding Chicago, the second city, very closely."

"T. W. Patterson is building an eight-story office building at Fresno. Imperial valley has voted a \$300,000 courthouse at El Centro."

"The Sacramento building program is the heaviest in history, running into millions."

"Pasadena building permits are averaging hundreds of thousands of dollars monthly."

"Crop conditions generally are good throughout California notwithstanding the backward spring. As a specimen of the heavy volume of fruit, 10,000 carloads of cantaloupes are being shipped from the Imperial valley."

Big Ranch Is Sold

"The Danziger ranch with all its improvements overlooking the beach near Los Angeles has been sold to a syndicate for \$2,000,000, marking one of the largest single residential realty transactions in California in years. The ranch will be subdivided."

"The Miller and Lux Buttonwillow ranch, five to ten miles wide and thirty miles long, has been reported to be sold to an English syndicate for \$12,000,000 or about \$80 an acre. This would indicate that British colonization and products are in the making and that an influx of British immigration to California may be expected from England. Buttonwillow, which contains 150,000 acres, is in Kern county, twenty-five miles west of Bakersfield, and contains soil which has been said by engineers to be as rich as the delta of the river Nile."

MUNGER WRITES ON DRILLING IN SOU. CALIF.

(Continued from Page Nine)

where in the neighborhood of 3000 feet. It is understood that the showings have been exceptionally good and warranted the setting of pipe.

Excitement Move Falls.
Drilling by the Standard Oil company at Buena Park is not causing any special excitement. The test well is close to 3400 and as yet has not shown any strong indications of oil. A few weeks ago an attempt at excitement was started by someone saying that the well was looking good.

Santa Fe Springs drilling conditions for the work show that the Amalgamated Oil company is next for production honors. The Amalgamated has Butterworth No. 3 in the oil sand at 4450 and is showing up strong. The Amalgamated's Jordan got a nice showing of oil at 3527 and set the 2 1/4-inch.

George F. Getty's Nordstrum well did not break into big production last week as expected.

The production of the General Petroleum's Springs No. 1 well has declined from 2000 barrels to less than 1000 barrels.

The Globe Petroleum company, holder of the Brunson property adjoining the General Petroleum's Springs No. 1, has started development work.

No Encouragement.
The Union Oil's outpost well, Farwell No. 1, now drilling at 4355, is not showing any particular encouragement.

The Nevada-Ventura is rigging up to drill the cement out at 3608. Prior to setting the pipe this company developed an excellent showing of oil.

At Signal Hill, the United Oil company's Hess No. 1, now drilling at 3100 feet, has been in the oil sand for more than 500 feet. This well, should it be a producer, will prove the southwest side of the field.

The Cal-Mex Oil and Refining company continues to fight water in the Kirkpatrick well.

Interest in the Fischer well increases as the hole approaches the 4400 mark. At 4375 the well is showing a brown shale.

Look For Producer.
New production at Long Beach is about to be delivered by the Holmberg Oil company and the Union Oil company.

The Transport Oil company is about to break into the producing list at Long Beach.

From An Investment Standpoint

—Any man who looks harder at the lot he is buying for a home than he does at the activity going on around it, is overlooking the biggest factor in determining its value. A lot is only a lot—of the same basic value, whether it lies at 4th and Broadway or on the desert. The thing that makes the big difference is the development which has taken place at 4th and Broadway, which never will take place on the desert.

Country Club Gardens

has shown more real activity in the short thirty days of its existence than any other recent real estate offering.

—Think of the pleasure of living, improving and beautifying your home in SANTA ANA RESTRICTED SUB-DIVISION, instead of paying high rents and never have a home of your own.

COUNTRY CLUB SEEKS BEACH HIGHWAY SITE

Golfers Support Plan for Modern Course On Newport Boulevard

Members of the Orange County Country club, meeting last night at the call of the committee appointed at the recent annual meeting of the club to look over prospective sites for a new club house and golf course, went on record as favoring plans to secure an option on approximately 150 acres of land facing on the Newport boulevard and running back toward the Newport bay along the Palisades road.

F. E. Farasworth, chairman of the committee, reported that of the three sites inspected by the committee, the Newport boulevard tract appeared to be the best, and he was directed to see what terms could be made with the present owners. The tract was recently purchased from the Irvine interests by the real estate firm of Bryant and Bradford of Los Angeles for sub-division purposes.

In the event suitable terms are offered, the club plans to form a holding company among its members to purchase the land and develop water, the club house and course to be constructed with funds raised through the sale of memberships.

If suitable arrangement can be made for the purchase of the land, efforts will be made to secure at least 500 members for the new club. It was intimated that memberships in the new club would be held at approximately \$150, possibly more. Members of the present club would be assessed a like amount in joining the new organization. Membership in the new organization would give members an interest in the property as arrangements would be made to have the club purchase the land from the holding company.

If the present plan goes through, the club will construct a modern clubhouse and install an 18-hole grass course. Only about 120 acres of the tract would be needed for an 18-hole course but the additional land would be taken to provide ample space for enlarging the course in the future.

REGULARS AT GOLF COURSE TO APPEAR IN COMPETITIONS

President Charles G. Twist of the Orange County Country club, who arranged last week's successful series of competitions for beginners at the game, announced today that a similar contest would be held a week from the coming Saturday for the regular players.

Driving, iron shots, approaching and putting will be the features of the contest and entrants will be charged a small fee. Each player will be allowed three balls in the various events and scoring will be done the same as in the beginners' contests.

Twist urges new members to come out and watch the old timers do their 'stuff'.

BRITISHERS LEADING IN GOLF TOURNAMENT

(United Press Leased Wire)

SANDWICH, England, June 22.—Ted Ray and J. H. Taylor, two British players, led the field today at the close of the first 18 holes in the British open golf championships. Ray and Taylor both went around in 73.

G. Paulker was second with a 74 and seven players were tied for third place with a 75, including Jim Barnes, the American champion and Audrey P. Boomer, who drove off first this morning.

Walter Hagen, American favorite for the title was next with a 76, Jack Hutchinson, defending champion, and Joe Kirkwood, the Australian, both turned in a 79. Starting on the second 18 holes, Duncan turned in a 75 for a total of 151 and Alec Herd a 79 for a total of 155.

On his second round Roger Wethered turned in a 78 for a total of 154; Boomer, 80 for a total of 155 and Mitchell, 79 for a total of 158.

DANNY LONG

SAN FRANCISCO, June 22.—

Danny Long knows just how a manager feels when he goes out to catch the rare okepi in his native haunts. Or a botanist in quest of a new orchid. Or a bugologist on the trail of some such butterfly as never was seen before.

Danny's trade is running down untried, but potential baseball stars. His latest stunt was conclusion of the \$100,000 deal by which Willie Kamm, San Francisco Coast League player, became the property of the Chicago White Sox.

He lists some of his earlier discoveries as follows: Frank Chance, found on a sand lot in Fresno.

Hal Chase, purchased in 1904, from Los Angeles for \$750.

Duffy Lewis, bought for the Boston Americans.

Babe Ruth, a 1903 find.

Ping Bodie, discovered in Napa in 1911, and Buck Weaver, who came to light in the same year.

Cravath, Claude Williams, Rieber, Charley Street, Fred McMullin and "others too numerous to mention," as Danny expresses it.

"How do you do it?" Danny was asked.

"I do it on the strength of a lifetime of experience studying the playing of baseball," he said.

Here's Yesterday's Home Run Wallowers

Parkinson, Philadelphia, two; total 7.

Lee, Philadelphia, one; total 5.

Rowher, Pirates, one; total 2.

THIS TIME LAST YEAR

After winning six successive games, Red Faber, Chicago, was stopped by Cleveland.

Tex Rickard announced that the capacity of the Jersey City arena built for the Dempsey-Carpentier fight had been increased to 91,613.

Mrs. Molla Mallory and Miss Elizabeth Ryan advanced to the fourth rounds of the British national tennis championships at Wimbledon.

Harvard beat Yale, 16 to 4.

STAR RACE HORSES GATHER AT LATONIA FOR \$50,000 EVENT

NEW YORK, June 22.—Morvich, ex-champion race horse, who let his colors drag in the dust behind Whiskaway in last Saturday's race, is now quartered in his stall at Latonia waiting for a chance to show his heels to the burglar who stole his crown.

One of the leading trainers in the country said that Morvich is still the great colt that was unbeaten as a two-year-old, and the only explanation that he could give for the last Saturday's race was that the horse had gone stale as the result of his strenuous training since early spring.

NEW YORK, June 22.—Pillory, R. T. Wilson's winner of the Preakness and the Belmont Stakes, was yesterday shipped by special car to Latonia to take part in the \$50,000 Latonia Special on Saturday, June 24. Five horses belonging to the Whitney stable, including Whiskaway, Olympus and Prudfish were also sent to the Kentucky racing course in a private car.

Here Are Heroes of Yesterday's Battles

Yesterday's Hero—Eli Rommel, Athletic pitcher let the hard hitting Browns down with four hits, got two singles in four times up and won 5 to 0.

Scoring two runs in the ninth inning, the White Sox beat Washington, 5 to 4 and moved into a tie for fourth place with the Cleveland Indians.

Bunched hits off Olsen and an error by Rigney broke the Tigers' winning streak of eight straight games and gave the Red Sox a 9 to 2 victory.

Two homers by Parkinson and one by Lee were all the tallies the Phils were able to get off. Aldridge and the Cubs won, 6 to 3 in a six inning game.

Three runs scored by a rally in the tenth inning gave Brooklyn a weird win over the Pirates, 15 to 14.

With Babe Ruth again on the side lines the Yanks got out of their slump with a vengeance, rapped 16 hits off two Cleveland pitchers and won 7 to 3.

PRINCE HOME AFTER INDIA, JAPAN TOUR

PLYMOUTH, England, June 22.—The Prince of Wales landed yesterday on his return from his tour of India and Japan and was accorded a tremendous official and popular welcome.

The great battleship Renown arrived off Plymouth last night. Fifty thousand persons massed on the hills to see it.

The Prince took a train for London, where the king and queen were to greet him.

ROGERS
A GOOD PLACE TO BUY Clothing and Furnishings
404 West 4th Street, Near Birch

THIS IS A STUDEBAKER YEAR

Studebaker

If Studebaker built nothing but the Big-Six, you would never be able to buy one of these extraordinary cars for \$1785 at the factory.

The expense of manufacturing and marketing Studebaker cars is shared by three distinct models, the Light-Six, the Special-Six and the Big-Six. That means one executive management, one manufacturing organization, one purchasing unit and one selling cost—instead of three separate organizations.

Consider the Big-Six as an investment—how much you get for your money, plus the amount you actually save.

We know of no car, even at twice its price, that will give you greater satisfaction in the matters of endurance, appearance, comfort, serviceability and the refinements. In everything that goes to make up your appreciation of a car, the Big-Six ranks with the finest built. But it distinctly does not rank with them in price!

The theory that high prices necessarily mean fine cars is fallacious, simply because prices are not based upon intrinsic values but upon production costs of individual makers, which vary widely according to their ability and manufacturing facilities.

Obviously, high costs of production, inevitably arising from incompetence or inadequate manufacturing facilities, mean not only high prices but actually inferior cars.

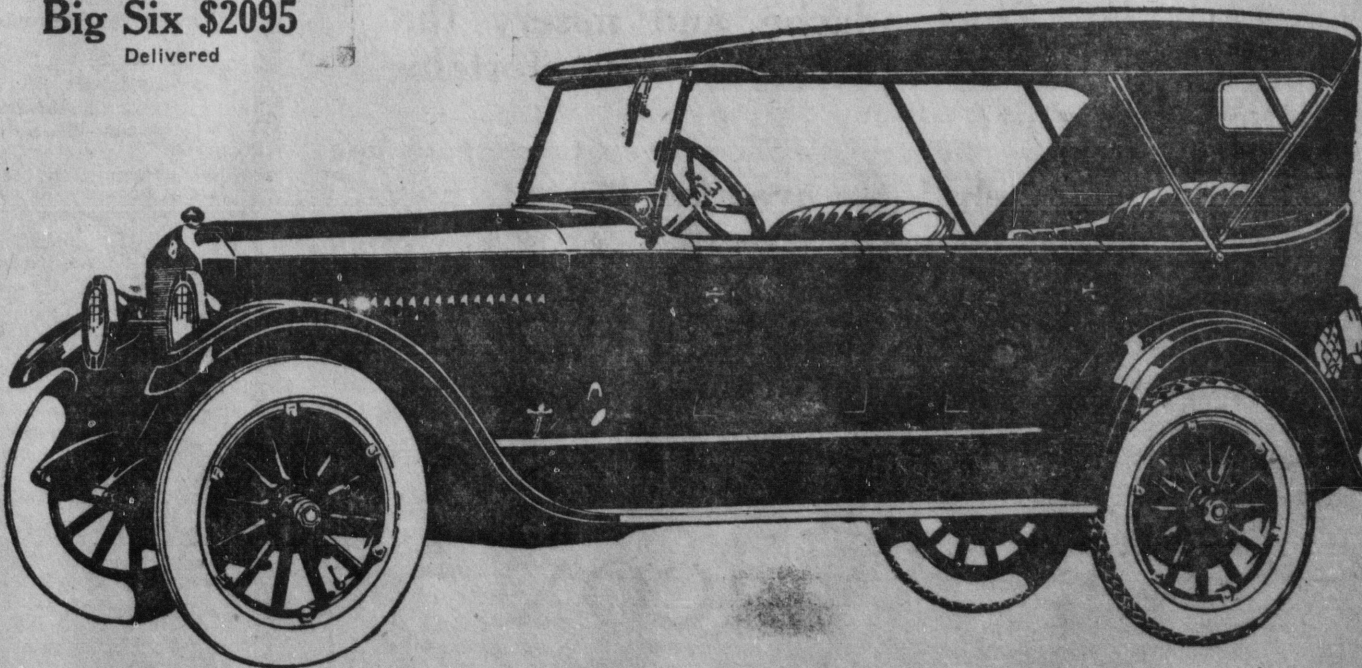

The materials and workmanship in Studebaker Cars measure up to the highest standards known to the automobile industry.

With \$70,000,000 of actual net assets, including \$36,000,000 of plant facilities, and seventy years' manufacturing experience, Studebaker stands unsurpassed in ability and resources to manufacture economically and give the greatest intrinsic value possible for a given price.

Garden Grove

BIBLE SCHOOL
ENROLLS 130
CHILDREN

GARDEN GROVE, June 22.—The Vocational Bible school opened in the high school and grammar school bungalow Monday with an enrollment of 130 pupils from the ages of 4 years until the first year of high school age.

The Rev. S. W. Gage, the principal, states that he has been in charge of three Bible schools in Los Angeles and this one seems more encouraging, with the good discipline of the pupils, than any school he has taught. Much interest is also being shown by the parents. Besides the principal the following teachers have classes:

Mrs. Susan Chaffee, Mrs. Hogue, Mrs. Thomson, Mrs. S. W. Gage, Mrs. F. A. Monroe, Lucile Allen and Edna Beardsley.

Think of "EXCELSIOR" when you want milk, cream and ice cream.

Cuticura Soap
Complexions
Are Healthy

DELPHIAN SOCIETY TO
PERFECT ORGANIZATION

GARDEN GROVE, June 22.—The Delphian Society was to meet at the home of Mrs. W. J. Newsom this afternoon at 2 o'clock.

This society is a branch organization of the national literary club, of which the Orange county headquarters are in Santa Ana. In the Garden Grove branch there are eleven members. An election of officers was to be held today.

PLAN YOUNG PEOPLE'S
PROGRAM AT SERVICE

GARDEN GROVE, June 22.—Friday evening is young people's meeting at the special revival meetings being held at the Baptist church by State Evangelist Holmes.

Tonight the Methodist church choir will present a program of special music.

The Baptist missionary circle met at the home of Mrs. J. A. Knapp recently with a good attendance. After a business meeting a program on India was held.

CHRONICLE OF
PERSONAL
AFFAIRS

GARDEN GROVE, June 22.—Mr. and Mrs. H. C. Modlin of Terry, Iowa, and Mrs. T. C. Rude, of Marshalltown, Iowa, were guests from Saturday until Monday evening of Mrs. J. M. Woodworth. Monday all moved to Camp Baldy.

Mrs. Sawyer, Mr. Fitz's mother, is very low at this writing.

Mrs. Elizabeth Fairchild visited her nephew, Rayne Fairchild and family, Sunday afternoon.

Dr. and Mrs. C. C. Violett went to Los Angeles Sunday to meet relatives from the East.

Mr. and Mrs. Blackburn, of Banning, were guests of the Rev. and Mrs. W. H. Harkness Saturday and Sunday.

Dr. C. D. Luedke made a trip to Glendale Sunday.

Miss Lucile Fairchild, of Los Angeles, spent the week-end with her aunt, Mrs. Elizabeth Fairchild.

Ed Dozier and family left Thursday on a three months' motor trip to Bishop, Yosemite, Lake Tahoe and Sacramento.

Mr. and Mrs. Lynn Pollins and Mr. and Mrs. Jack Hale spent the week-end camping at Silverado canyon.

Mr. and Mrs. J. C. Armstrong and son, Trenton, Mrs. Fred B. Smith and daughter, Betty, and Mrs. G. Root, of Santa Ana, motored to Trabuco canyon Sunday.

To Motor to Iowa.

Fred Andres and family expect to leave the last of this week by machine for Iowa and Minnesota where they will visit for two or three months.

J. Ward and family, accompanied by Mrs. E. E. Westhe, of Orange, attended the Free Methodist camp meeting at Los Angeles Sunday.

Harold Hand and Godfrey Fortier, of Reddy, arrived Saturday for a ten days' visit with friends and relatives here.

B. J. Collins and daughter, Eunice, of Murrieta, were callers here Monday.

Mr. and Mrs. Harvey Rue, of Santa Ana, were cars at the home of Mr. and Mrs. William Tyler Sunday.

Floyd Andres is a member of the graduating class of the Chaffee Junior college which held their commencement exercises recently.

Mr. and Mrs. Ed Shields left Sunday on a motor trip to Fresno where they will spend a week visiting relatives.

Mr. and Mrs. Cranston enjoyed a motor trip to San Diego Sunday, returning home Monday.

Herman Witte and two sons, Fred and Charlie, and Kenneth Tyler spent Friday at Laguna Beach.

Mrs. P. M. German spent Saturday and Sunday with her sister, Miss Constance Irvine, at Downey.

Mrs. S. R. Pitz was a Los Angeles visitor Monday.

J. O. Arkley and family departed on a month's motor trip to Yosemite the latter part of last week.

Mrs. E. W. Elliott spent Monday in Los Angeles.

Miss Dorothy Stillens went to Corona Monday where she will visit her sister, Mrs. Delbert Preston, this week.

FRECKLES

Don't Hide Them With a Veil; Remove Them With Othine—Double Strength

This preparation for the treatment of freckles is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength Othine; it is this that is sold on the money-back guarantee.—Adv.

Wintersburg and Smeltzer

VACATION PLANS
AND PERSONAL
NEWS NOTES

WINTERSBURG AND SMELTZER, June 22.—With the closing of the Huntington Beach Union high school last Friday members of the local young people who are among the students are enjoying the Cruise of vacation days and are looking forward to the culmination of vacation plans.

Five members of the senior class were from Wintersburg—Viola Mallett, Frank Houser, Lucile Soden, Roy Morgan and Charles Blaylock.

On Friday evening the third year English class picnicked at Orange county park and several local class members, Charles Cook, Frank Houser, Albert Maddux and Viola Walton attended. The farewell gathering proved a most pleasant one.

On Saturday evening the alumni picnic was held, this gathering also being held at the county park, where a steak bake and delightful social outing was enjoyed. Viola Mallett, Arthur Murdy and Frank Houser were the three local '22 graduates present.

Mr. and Mrs. L. A. Wallace, daughters, Cora and Esther, and son, Wesley, were dinner guests on Sunday of their son-in-law and daughter, Mr. and Mrs. Robert Turner.

Little Johnnie Howard, of Bolsa, in spending the week with his cousin, Mrs. Robert Turner.

Mr. and Mrs. W. G. Alford were Anaheim visitors recently.

Mr. and Mrs. Wallace Sharratt and daughter left Tuesday for their new ranch home near Santa Ana.

Mrs. Clinton Brush and little daughter, Edith, returned Monday from Modesto, following a week's visit with her parents, Mr. and Mrs. Pierce. Mrs. Brush went north with the intention of remaining two weeks, but with the temperature at 105 degrees, she concluded Orange county and home was the place for her.

Call of Open Road.

Mrs. W. G. Alford received a card Monday from Mr. and Mrs. W. L. James, well known former residents of Smeltzer, and present property owners, who are making an extended trip in company with their daughter, Miss Lelia, and son, William, to points of interest west of the Mississippi.

They are now en route to the Grand canyon and the contemplated route will lead them through Salt Lake, Yellowstone national park, Glacier park, across the line into Canada then home by Mt. Rainier and Sequoia park. Two months or more will be devoted to the trip.

Loren Maddux, Will Preston and Russell Alford were among former graduates of the Huntington Beach high school, who attended the alumni picnic Saturday evening.

Mr. and Mrs. Leonard Cady, of Huntington Beach, were dinner guests Tuesday evening at the W. G. Alford home.

Mr. and Mrs. C. H. Maddux and son, Albert, and Mr. and Mrs. Charles Cook and son, Charles, left Tuesday morning on a motor trip to Oregon. Both families have relatives in that state and will go as far north as the Hood river country. The party expect to be absent about a month.

Miss Hattie Schenley spent several days last week in this vicinity and with her brother, Al Schenley, attended the alumni picnic of the Huntington Beach high school, held Saturday evening at Orange county park. Miss Schenley has just completed her first year's work at the Los Angeles Normal and her sister graduated this term from the high school of Gardena, where the family now resides.

SOCIAL ACTIVITIES;
ITEMS OF INTEREST

WINTERSBURG & SMELTZER, June 22.—Mrs. Robert Turner was hostess at a pretty social affair at her home when she entertained with a shower for her aunt, Miss Jessie Howard, of Bolsa.

Trimmings of pink adorned the rooms and the pink color scheme was also used at the table, when a center piece of pink roses predominated.

The tempting refreshments consisting of ice cream and cake were served by the hostess to her guests who included the honoree, Miss Jessie Howard, Mrs. W. T. Howard, and Mrs. John Farnsworth of Bolsa. Mrs. Dan Butler of Hollywood, Mrs. L. A. Wallace of Wintersburg, Mrs. Jones and Mrs. William Ely of Smeltzer.

Mrs. C. G. Bonebrake spent last Thursday at Orange with her sister, Mrs. G. G. Richards and family. A large radio set has just been installed by the Richards and the pleasing experience of listening to musical concerts by radio was enjoyed during the luncheon hour. The party also attended the Ford Rodeo parades during the day.

Mrs. Carolyn Nankervis, of Westminster, was an all-day guest at the home of her daughter, Mrs. Charles Houser at Smeltzer.

Mrs. Dan Butler and two children of Hollywood were guests Friday and Saturday at the Robert Turner home at Smeltzer. Mrs. Butler is an aunt of Mrs. Turner.

Mr. and Mrs. Charles Graham were Sunday visitors with friends at Pomona.

Mrs. Ernest Wells and baby who were guests for a week at the home of her parents, Mr. and Mrs. A. A. Mallett, have returned home.

Niel Bradbury left the past week with a party of Santa Ana friends on a motor trip to New York. A card was received by his parents written soon after the party had left the Cajon Pass. Bradbury stated it was necessary to change their frequently owing to the intense desert heat.

Says His Prescription Has Powerful Influence Over Rheumatism

Mr. James H. Allen, of Rochester, N. Y., suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery, which he called Allenur, to others who took it, with what might be called marvelous success. After years of urging he decided to sufferers everywhere to know about his discovery through the newspapers. He has therefore instructed druggists everywhere to dispense Allenur in the form of a small bottle that the first pint bottle does not show the way to complete recovery he will gladly return your money without comment.

Good used cars at real bargains. Easy terms, we trade. Townsend and Medberry, Inc., 5th and Broadway.

WINTERSBURG & SMELTZER, June 22.—Indications point to a large audience at the M. E. church hall where the "Barbed Wire" glee club is to present a program of vocal numbers for the benefit of the church building fund.

Members of the glee club are Maurice Phillips, of Santa Ana, noted bass soloist and leading comedian of the Orange County Choral union's operatic productions; his brothers, William Phillips, of Wintersburg, and John Phillips, of Santa Ana; William Howell, of Los Angeles, and John Chapman, of Santa Ana. Mrs. Chapman is the accompanist of the club.

Sunday school children have been busy throughout the week disposing of tickets in the community and much interest is manifest in the concert which is quite the most important to be scheduled here in many months.

CHILDREN'S DAY PROGRAMS SUCCESS

WINTERSBURG AND SMELTZER, June 22.—An interesting children's day program was successfully given at the morning service hour at the Wintersburg Methodist church on last Sunday, and was largely attended by an appreciative audience.

Mrs. Ray Shafet, Mrs. Sherman Buck and Mrs. Raymond Beem were members of the committee that trained the children and the perfect rendition given was ample evidence of the interest the children took in the program.

The decorations about the rostrum and throughout the auditorium were lovely. Shasta daisies and ferns being used exclusively. Mrs. A. H. Moore and Mrs. Ray Shafet formed the decoration committee.

The numbers of the program included the following:

Selection by orchestra, Melody overture, "Angelic"; song by choir, "Praise the King"; prayer, the Rev. J. Scott Willmarth; readings by Cora Wallace, Junior Ruoff, Johnnie Kettler and John Slater; song by girls of choir, "Sweet Flower Bloomed"; dialogue, Marie McMillan, Russell Kanawyer, Geraldine Gardner, Clarence Clemens, Bonnelyn Fox and Marie Soden; recitation, Marie Moore and Bobbie Bonebrake; song by choir, "Under the Banner Bright and Glorious"; recitation, Merle Soden; dialogue, "Four Little Pansies"; Doris Moore, Jean Ruoff, Mildred Moore and Elizabeth Willmarth; recitation, Alice Willmarth; song, "A Friend of the Children," by Miss Ethel Eastham's class; dialogue by the Murdock twins, Genevieve and Josephine; recitation, Norma Buck; recitation, Muriel Moore; dialogue, Bobbie Bonebrake, Homer Slater, James Willmarth and Harlan Moore; dialogue, Johnnie Kettler, Junior Ruoff, Wilbur Buck, Duane Moore, Wendell Kanawyer; recitation, Clayton Murdock; recitation, Pearl Clemens; song, "Two Little Rain Drops," Mrs. Buck's class; recitation, Alma Kanawyer; recitation, Duane Moore; offering; dialogue, Delma Stinson, Maxine Bradbury and Violet Halford; recitation, Mebie Gardner, recitation, James Willmarth; dialogue, Lavinia Halford, Ruth Kettler and Juana Gotthard; recitation, Violet Halford; recitation, Margaret Bonebrake; song, "Fill the World With Singing," by the choir; dialogue, "Days of Golden Gladness," Margaret Bonebrake, June Slater, Bonnelyn Fox and Norma Buck; selection, orchestra, a melody march, "God Be With You Till We Meet Again."

On next Sunday morning the Rev. Mr. Rasmus, superintendent of the local district of the M. E. church, will preach at the Wintersburg church at 11 o'clock and in the afternoon at 2:30 will conduct the quarterly conference which is the fourth for this conference year.

The Rev. Scott Willmarth will conduct the evening service at the usual hour.

SELLS WALNUT GROVE ON EAST FIRST HERE

R. L. Peterson has sold to Charles Bennett a seven-acre walnut grove on East First street, near McClay street, it was announced today. Peterson recently came here from Waterloo, Iowa, purchasing the walnut grove and the home of Dr. M. A. Patton, First and Lyon streets. It is understood that he sold the grove and is preparing to sell the home preparatory to returning to Iowa.

Says His Prescription Has Powerful Influence Over Rheumatism

Mr. James H. Allen, of Rochester, N. Y., suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery, which he called Allenur, to others who took it, with what might be called marvelous success. After years of urging he decided to sufferers everywhere to know about his discovery through the newspapers. He has therefore instructed druggists everywhere to dispense Allenur in the form of a small bottle that the first pint bottle does not show the way to complete recovery he will gladly return your money without comment.

Says His Prescription Has Powerful Influence Over Rheumatism

BEGIN HERE TODAY
After eight years of married life, MARK SABRE, a well-educated Englishman, realizes that he and his wife, MABEL, have been drifting apart because of fundamental differences in taste. Sabre's delinquencies in poetry, in whimsical humor, in democratic ideals are not shared by the prosaic and snobbish Mabel. In hours of leisure from his work in the firm of Fortune, East and Sabre, church and school outings, in which Sabre has charge of the publishing department, Sabre visits his eccentric but charming neighbors, Mr. Fergus and "the Perches": Young Perch and his in-

valid mother. Suddenly another friend appears—Nona. She is now Lady Tybar. Sabre, bicycling to work unexpectedly meets Nona and her dashing husband, LORD TYBAR.
GO ON WITH THE STORY
Lord Tybar's lady, who was twenty-eight, carried in her countenance and in her hair the pleasing complement of her lord's tan and olive hue and of his cropped black hair. She was extraordinarily fair. Her skin was of the hue and of the sheen of creamy silk, and glowed beneath its hue. It presented amazing delicacy and yet

an exquisite firmness. Children, playing with her, and she delighted in playing with children (but she was childless), often asked to stroke her face. They would stare at her face in that immensely absorbing way in which children stare, and then ask to touch her face and just stroke it: their baby fingers were not more softly silken. Of her hair Lady Tybar had said frequently, from her girlhood onwards, that it was "a most sickening nuisance." She bound it tightly as if to punish and be firm with the sickening nuisance that it was to her.
Her name was Nona.
Out of a hundred people who passed her by quite a considerable number would have denied that she was beautiful. Her face was round and saucy rather than oval and classical. Inconceivable the striking attraction of her complexion and of her hair; but not beautiful—quite a number would have said, and did say, Oh no; pretty, perhaps, in a way, but that's all. But her face was much more than beautiful to Sabre.
IV
Greetings had been exchanged; his apologies for his blundering descent upon them laughed at. Lord Tybar was saying, "Well, it's a tiger of a place, this Garden Home of yours, Sabre—"

"It's not mine," said Sabre. "God forbid."
"Ah, you've not got the same beautiful patriotism that I have. It's one of my most elegant qualities, my passionate devotion to my country," said Sabre.
"You're a bloated aristocrat and a bloodsucker," Nona told him in her clear, fine voice. "And you're living on estates which your brutal ancestors ravaged from the people. That's what you are Tony. I showed it you in the Searchlight yesterday. And, I say, don't use that 'elegant' that's mine."
"Oh, by gad, yes, so I am," said Lord Tybar. "Bloodsucker! Good lord, fancy being a bloodsucker!"
He looked so genuinely rueful and abashed that Sabre laughed; and then said to Nona, "Why is elegant yours, Lady Tybar?"
She made a little pouting motion at him with her lips. "Marko, I wish to goodness you wouldn't call me Lady Tybar. Dash it, we've called one another Nona and Marko for about a thousand years, long before I ever knew Tony. And just because I'm married—"
"And Sabre," said Lord Tybar, "what the devil does it matter what a bloated robber minds, any way? That's the way to look at me, Sabre. Trample me underfoot, my boy. I'm a pestilent survivor of the feudal system, aren't I, Nona?"
"Absolutely. So Marko, don't be a complete noodle than you already are."
"Ah, you are getting it now," Lord Tybar murmured. "I'm a noodle too, the Searchlight says. I somehow gave Sabre the impression of taking an even deeper enjoyment in the incident between his wife and Sabre than the enjoyment he clearly had in his own facetiousness. He was slightly turned in the saddle so as to look directly at Nona, and he listened and interposed, and turned his eyes from her face to Sabre's and from Sabre's face to hers, with his hands and with much gleaming in his eyes; rather as if he had on some private mock.
"Fantastical notion! What mock could he have?"
"Well, about my word 'elegant.' Nona was going on, 'and why it is mine—wasn't you asking?' Sabre said he had. 'Yes, why yours.'"
"Why, Tony and I get fond of our word and then we have it for our own, whichever of us it is, and use it for everything. And elegant's mine just now. I'm dreadfully fond of it. It's so—well, elegant; there you are, you see!"
The mare steadied again. She stretched out her neck towards Sabre and quivered her nostrils at him, sensing him. He put up a hand to stroke her beautiful muzzle and she threw up her head violently and swerved sharply around. The mare was wheeled round again to her former position; against her will, but somehow as the natural result of her dancing. Marvelous how he directed her caprices into his own intentions and against her own. But Lord Tybar was now looking away behind him to where the adjoining meadow sloped far away and steeply to a copse. In the hollow only the tops of the trees could be seen. His eyes were screwed up in dis-

"Tarzan" Baby

Jimmie Syracuse, 18 months old, still runs about his father's private park in New York City like a child of the forest. Doctors say he is the healthiest child in America.

Unusual Folk

DAYTON, O., June 21.—T. Ross Kepler, who learned telegraphy here, claims the world's record for speed and endurance.
The contest was staged in Columbus. There were seven contestants.
In the speed event Kepler sent 519 words in 2 minutes, 43 seconds, using the Phillips code. In the endurance contest he sent reading matter in Morse for 2 hours 15 minutes, averaging 68 words a minute.
Kepler's speed record exceeds, by 58 words a minute, Benjamin Tidrick's record in San Francisco in 1906.

FIGURING IT OUT.

BY BLOSSER

These were enthusiastic words; but she spoke them without enthusiasm; she merely pronounced them. "Well, I'm off too," she said. "And what about you, Marko? You are going to work, aren't you? I don't think you ought to be able to stop and gossip like this. You're not getting an idler are you? You used to be such a devoted hard-worker. My word!" and she laughed as though at some amused memory of his devotion to work.
He laughed, too. They certainly had many recollections in common, though not all laughable. "I don't think I'm quite so—so earnest as I used to be," he smiled.
"Ah, but I like you earnest, Marko."
There was the tiniest silence between them. Yet it seemed to Sabre a very long silence.
She was again the one to speak, and her tone was rather abrupt and high-pitched as if she, too, were conscious of a long silence and broke it deliberately, as one breaks, with an effort, constraint.
"And how's Mabel?"
"She's all right. She's ever so keen on this Garden Home business."
"She would be," said Nona. "And so am I!" said Sabre. Something in her tone made him say it defiantly.
She laughed. "I'm sure you are, Marko. Well, goodbye," and as Derry and Toms began to turn with his customary sedateness of motion she made the remark, "I'm so glad you don't wear trouser clips, Marko. I do loathe trouser clips."
He told her that he rode "one of those chainless bikes."
He said it rather mumbly. Exactly in that tone she used to say things like, "I do like you in that brown suit, Marko."
He resumed his ride. A mile farther on he overtook, on a slight rise, an immense tree trunk slung between three pairs of wheels and dragged by two tremendous horses, harnessed tandemwise. As he passed them came the smell of warm horseflesh and his thought

Saving Drowning

Every summer claims its quota of victims by drowning. If everyone knew the mere rudiments of artificial respiration for the apparently drowned, fewer would be sacrificed.
When a bather has been brought from the water apparently drowned, don't lose a moment in trying resuscitation. At any moment up to two or three hours, signs of recovery may appear.
First, with the corner of a handkerchief wrapped around the finger, clear the victim's mouth of any obstruction.
Lay the sufferer's face downward and, by slightly elevating the lower portions of the body, expel as much water as possible from the stomach and air passages.
Then use the Schafer, or one-man, method of restoring breathing.
The patient should be placed with his face downward and head inclined to one side, so that the nostrils and mouth are exposed, allowing the tongue to fall forward toward the front teeth to avoid obstructing the air passage.
Then kneel astride the subject, placing the palms of the hands on his lower ribs, with the thumbs nearly touching in the center of the back, the fingers extended well over the sides of the ribs. Lean over the body, throwing your weight on it, and pressing the abdomen to the ground, thus expelling the air from the chest. Next draw the body back sharply, taking the pressure from the ribs, but do not remove the hands. This draws the air into the lungs.
Keep up these two movements alternately, by a steady swaying of your body; time the thrusts by your own breathing, which should be about 15 times to the minute.
Heat should be applied to the patient's body as early as possible. This should be in the form of hot water bottles wrapped in cloth to prevent burning.
Stimulants such as hot coffee or liquor, should be given only after you are assured the victim is able to swallow properly.

Luxury of Soap

What thing in civilization would you miss most if you suddenly went out to live in the woods like a savage? In England, Major McEwan and his wife tried the experiment. After 10 days they abandoned their "back to nature" campaign. Mrs. McEwan pronounced soap the greatest blessing of civilization. Cleanliness is civilization's greatest luxury.

FALSE ECONOMY

What a pity that a thorough and complete job of repairing cannot be done in Broadway, from end to end! Probably it would not cost more than two or three thousand dollars, but if it cost five or six thousand it would be money well spent. It would probably prolong the life of the pavement ten years and save property owners and taxpayers tens of thousands of dollars.

Not to do this work is like unto a rich man having a fine home with a leaky roof, but unable to repair it because he will not break a resolution made years ago, when he was a poor man, not to spend more than one dollar out of every hundred of his property valuation.

For that, in analogous cause and effect, is the reason the Broadway pavement cannot be repaired. The city can only levy a general fund tax of one dollar on the hundred valuation, and has no money to pay for the repair work. A rich and prosperous community, as a whole, we hold on to our money, or spend it for joy riding or its equivalent, and figuratively let our fine house rot down for want of roof repair or fresh paint.

In other words, we refuse to adopt a special charter or otherwise raise the one dollar tax limit fixed by a state law passed more than a quarter of a century ago, when the purchasing power of a dollar was perhaps more than double its present purchasing power.

NO WAR WITH MEXICO

It is disquieting to find so responsible a newspaper as the Rocky Mountain News saying: "One of these months the United States will have to make up its mind whether it shall undertake the invasion of Mexico." It is some time now since such language has been expected from any but the Hearst papers.

Things are shaping for something of the sort, says the Denver newspaper. Professional revolutionists are gathering on this side of the border, as well as on the other side; and among them, as leader, is a Mexican leader who has been keeping the peace in the Tampico oil fields in the interest of American producers.

"If the people say so," remarks the paper quoted, "it will not be done. If they are in an aggressive mood, they may approve such a move to be undertaken from Washington."

Whatever may be the mood in El Paso and Wall street, it requires no great perspicacity to see that the American public as a whole is not looking for war with anybody at present, and doesn't know a reason on earth why it should invite one by invading Mexico.

The American oil interests are able to fight their own battle, and have been doing so with pretty good success in the recent conference in New York with the finance minister of President Obregon's government. Obregon wants loans and he wants recognition by the United States. For these he seems willing to make any concession that his own people will stand for; and his people are not in the truculent mood that they were a few years ago. But even if negotiations fail, it will require a far greater effort than interventionists realize to persuade the country to any hostile move.

WORLD ADVERTISING

London has inaugurated a determined campaign for the honor of the 1924 convention of the Advertising Clubs of the World. Lord Northcliffe, greatest of British publishers, has interested himself in the proposal and one of his representatives, at the Milwaukee convention, was active in its behalf.

Every similar convention to date has been held upon this continent and there is a feeling that, although advertising has, perhaps, developed along broader and more spectacular lines in this country, the profession first came into being in England and that country's dominant position in world trade entitles it to recognition.

American advertising men will, no doubt, view the whole proposition with disfavor, except when they feel sure they can go themselves. There can, however, be no question of the value of a truly international convention of this nature, and of its profitable result in the shape of interchanged ideas and better understandings.

Surely, if we want foreign trade, it should be worth our while to know, at first hand, how to appeal to those who buy in markets overseas.

THE PROFESSOR'S WIFE

The story of the quiet professor of astronomy who saved money on \$1,800 a year, made some lucky investments, reinvested his dividend checks on the advice of his bankers and finally at the age of 89 is able to give a great telescope to his university is amazing many people. The telescope is to be a very fine one, costing nearly \$250,000. Almost all of this comes from the professor.

It is a beautiful story of devotion to an ideal. But it is not quite fair to give all the credit to the professor. A just half is due the professor's wife.

Had the wife not been willing to keep on with her humble existence in the midst of prosperity beyond her early dreams, had she not been willing to do her full share of the working and the self-denying and the waiting and the putting first in her heart and soul the ideal of her husband, he could hardly have accomplished his great work and succeeded in realizing that long-served ideal.

In no spirit of detraction from his fine spirit and devotion are these words written. But the gift was made not by one donor, but by two.

STOP THE COAL STRIKE

The reported intention of the Secretary of Labor to undertake the task of bringing the coal operators and miners together for a peace conference is timely, to put it mildly. The public has been anticipating some such action for weeks.

If there was anything to be gained, economically or politically, by a hands-off policy, that is certainly the case no longer. The strike has run for nearly three months. Coal reserves are near exhaustion, and will not last another month. Industry is threatened, and in some cases is said to be already slowing down. The operators, at first reluctant to meet the miners, are becoming restive, and would probably

welcome an invitation now to meet them under the auspices of an impartial government.

It does not matter whether action taken by Secretary Davis, or any other federal official, is official or unofficial, as far as the government is concerned. The main thing is to get action in a place where action is needed, and stop the nonsense of a great key industry marking time while industry in general is on the march and afraid of a halt being called for lack of fuel.

If the two parties to the dispute can be brought together, in mind as well as body, peacefully and voluntarily, so much the better. If not, they ought to be brought together anyhow. If persuasion fails, it will soon be time to use a big stick.

THE IMMIGRATION QUOTA

The fixing by the Department of Labor of 357,903 as the number of immigrants who may come into this country during the 12 months beginning July 1 does not mean that many will come. The number of recruits is sure to be much less.

Some of the countries will take full advantage of their quotas, as they have done in the past year. Others will not. It may be doubted whether the total number of entrants will be more than 300,000. Recent figures have seemed to indicate that the total for the present year will fall considerably short of that figure.

Moreover, there must be set off against these entrants the large number of immigrants already here who will leave during the year for the old country. There has been a considerable emigration in the last few months. Although dependable figures are not at hand, it seems safe to say that perhaps there will not be more than 100,000 net gain in population from foreign sources either in the present fiscal year or the next one. This is a notable drop from the years when we used to import a million immigrants, and keep two-thirds of them.

It has been reported lately, too, that most of the present immigrants are women, and that there is actually a net loss in male immigration. This is a situation not looked for, and one that works with the three per cent restriction law to save this country from the cheap labor competition that was feared as a result of the war.

What Is Real News

Long Beach Press

What is news? This is a serious question in every responsible newspaper office in the land. Jesting Pilate asked the Christ, "What is truth?" But those who are charged with the task of making newspapers do not ask jestingly: "What is news?" They ask it in all seriousness. They rack their brains over it. They must decide, day after day, just what is real news and what is spurious or objectionable. And they must decide, too, relative values in news items—is this more important than that, and if so, why?

The clean, conscientious newspaper has a certain type of "news" without even pondering it—that is, salacious, filthy, moral-sewage "news." There is a wide diversity of news—so-called—which, in a great many instances, is not legitimate news, but rumors or insinuations or half-truths which, if published, would injure someone, or perhaps would injure several persons—might even ruin somebody. The conscientious publisher or editor does not seek this kind of news, and does not use it unless the good to be accomplished by its publication would offset the hurt its publication might give.

Then there is the question of the value of news. This is a busy age. Newspapers are read by multitudes who have no time to waste—who must read hurriedly. They want the meat of the news, so to speak. They do not want a great mass of inconsequential news. They do not want columns of scandal or other columns about the engagement of an American heiress to a Swiss riding-master and what her family thinks of it; or yet other columns about a gladiatorial operation on a captain of industry. It must be admitted—and the makers of newspapers take cognizance of the fact—that there is type of news known in newspaper offices as "human-interest" which is used, to some extent, in the best of newspapers. How much of this to use is a perennial question in every newspaper office. But the best type of paper use it sparingly and take pains to use only that which is wholesome and unobjectionable.

There Is No State Deficit

Redlands Facts

That excellent paper, the Riverside Enterprise, contains an editorial with the heading, "State's Deficit Increasing." Just to keep the record straight, it may as well be understood by all within the sound of this paper's voice, that "there ain't no such animal" as a State Deficit. The state of California is paying its bills in full, promptly, and does not owe any money except the bond issues authorized by the public. In fact, it has money in the bank, as State Treasurer Richardson will tell you. There is doubtless some of its surplus in the banks of Riverside, where the Enterprise man can go and look at it.

But the Riverside paper's article was based upon a series which Mrs. Nellie Brewer Pierce, an attorney in the employ of the "State Taxpayers' Association," is writing for the Los Angeles Times. Be it understood, the Taxpayers' organization is not an institution of bona fide individual taxpayers—far from that. It is the organization by which the railroads, in their battle to pay a less rate of taxation than do the plain, garden variety of taxpayers, carry on their propaganda.

Demand Is Increasing

Orchard and Farm

All along the line has been the constant fear of "over production" of California fruits. Yet the demand in 1921 was greater than ever. Frantic wires for more came as the season drew to a close. But today, delicious fruits go to every small city and hamlet of the American continent. Yesterday, the shippers, acting individually, were ruining each other in trying to cover the good markets.

Today, California stands second in rank among states of the union in total value of farm crops. Texas, with its vast area, still is first. Who can say how humbly low would be the rank of California were it not for the specialty fruit industry, with its efficient marketing methods?

Editorial Shorts

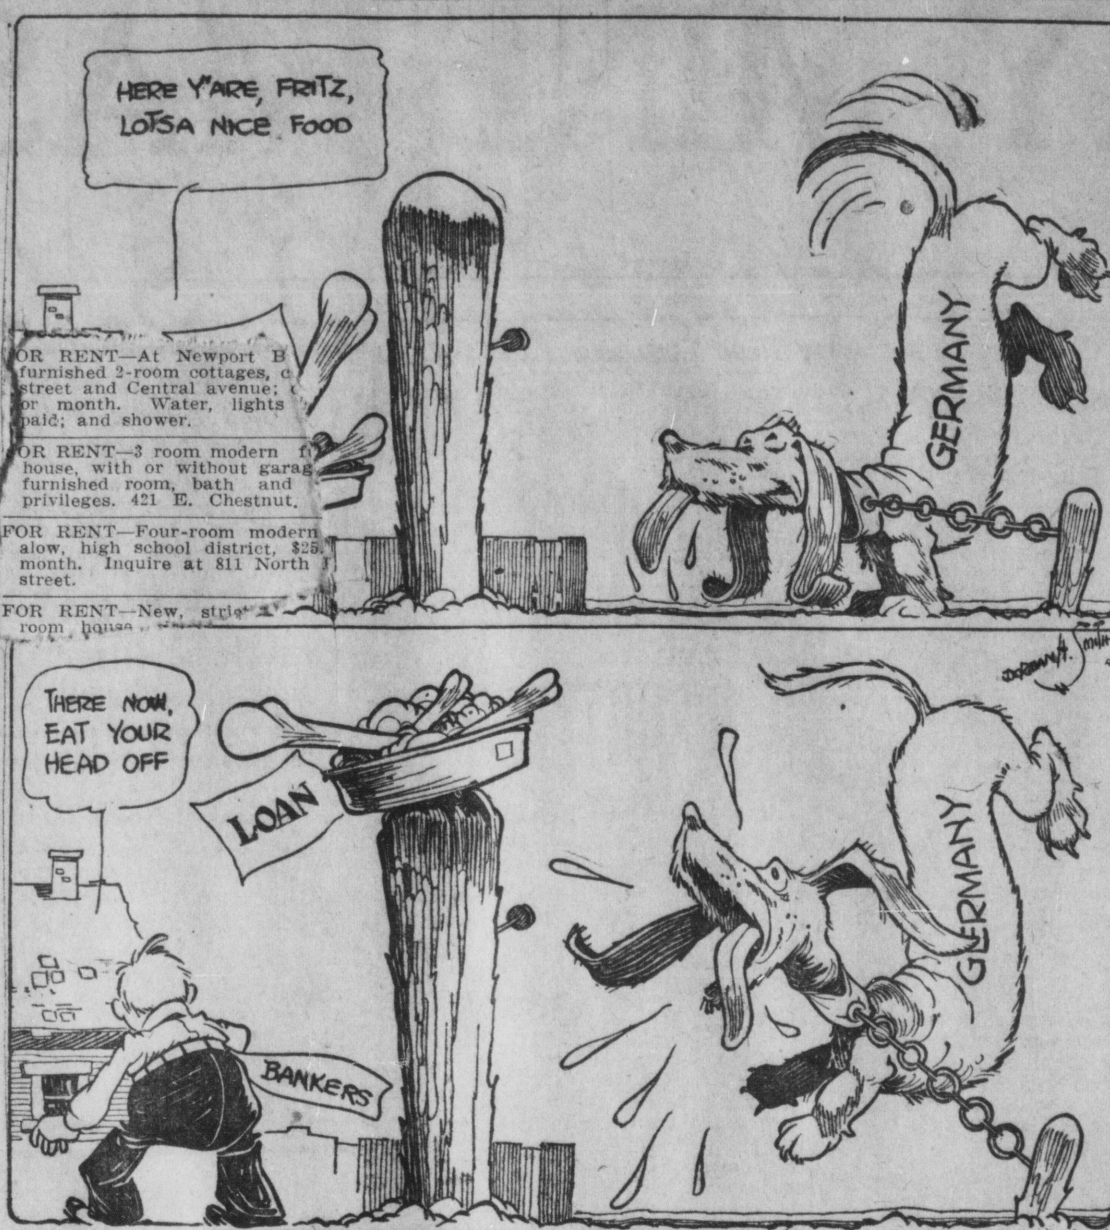

And the grapes also; don't forget the grapes. The Imperial valley crop is going to grace the tables of tens of thousands of households and the income from this fruit of the vine will swell the grand total by a handsome sum. Two thousand acres added to the vineyards of the valley this season and millions of cuttings rooting for later plantings. Our grapes are in process of giving us a new fame—Imperial Valley Press.

Why don't the weather and the fashions get together?—San Francisco Journal.

Once upon a time we bought a pound of Swiss cheese and got more cheese than holes.—Aesop's Film Fables.

The Chinese are not as civilized as are generally supposed. They haven't used any poison gas in their little row.—Associated Editors (Chicago).

Ho, Hum, That Job's Done

Today's Talk

by George Matthew Adams

YOUR LITTLE DEVILS

Your real enemies are your little Devils—those silent, unseen little fellows in the garb of gloomy and sulky moods, fear, gossip, lying, mistrust, discouragement, cynicism, that hang on your heels and follow you, irritate you, madden you. It is they who block your success, when you allow them to stay with you.

Your first and biggest task each day is to start off right by ridding yourself of your little Devils.

For otherwise, if you give them an inch they will seek to take miles—and all your smiles!

The little Bad Mood Devil that takes you into your day with a grouch over some trivial thing—the Shrug-shoulder Devil that seeks to cast a slur upon a character—the little Mistrust Devil that sits impudently at conference when your judgment and courage should be alone—away with them all! Their increasing powers that grow from day to day so long as you let them hang around, sap and suck at your very lifeblood, your independence, your happiness.

Your biggest task each day is to start off right by ridding yourself early of your little Devils.

Don't allow them to deceive you. They wear false faces. They smile smoothly. Also, they speak softly sometimes. But be on guard. They will follow you from place to place, but if you are brave and calm enough, ever self-controlled, your little Devils might as well not exist—you won't need to fear them, because they won't be able to see you.

Worth While Verses

"Black Sheep, Black Sheep,
Have you any wool?
That I have, my Master,
Three bags full.

One is for the mother who prays for me at night—
A gift of broken promises to count by candlelight.
One is for the tried friend who raised me when I fell—
A gift of weakling's tinsel oaths that strew the path to Hell.
And one is for the true love—the heaviest of all—
That holds the pieces of a faith a careless hand let fall.

"Black Sheep, Black Sheep,
Have you any wool?
A word to each, my Master,
Ere I go my way.

A word unto my mother to bid her think o' me
Only as a little lad playing at her knee.
A word unto my tried friend to bid him see again
Two laughing lads in Springtime a racing down the glen.
A word unto my true love—a single word—to pray
If one day I cross her path—to turn her eyes away.
—By Theodosia Garrison.

Transparent Gold

Gold 12,798,000 of an inch thick, or 10,584 times thinner than the ordinary sheet of printing paper, has recently been produced. One grain of the precious metal of this thickness covers nearly four square feet of area and is transparent.

The process of obtaining the thinnest film, according to Popular Science Monthly for July, is to cut a sheet of copper to a determined size and place it in an electric bath, where sufficient gold is deposited on one surface of the plate to produce the finest gold color discernible.

To separate the film of gold from the copper, the gold-plated copper is immersed in a weak solution of nitric acid for several days. The copper is entirely dissolved, leaving the film of gold floating on the surface. The film is then collected on a glass plate.

Huge Mold

Not so long ago one of the great steel companies turned out the largest ingot mold ever seen. It is octagonal in shape, fifteen feet seven inches high, with an average inside diameter of ninety-one and one-half inches. The thickness varies from fifteen to twenty inches.

The mold was used in casting the 300,000-pound steel ingots from which our sixteen-inch and eighteen-inch guns are forged.

The Bessemer iron for the mold was melted in three large open-hearth steel furnaces and suspended in three ladles over the mold at one time. The molten contents then mingled in a trough or runner, so that the iron was thoroughly mixed before it entered the mold. It took 340,000 pounds of iron to pour the casting. After the mold was thoroughly cooled two 100-ton cranes lifted it from the sand pit.

In the Long Ago

From the Register Files

June 22, 1908.

H. Clay Kellogg, engineer for the S. A. V. I. company and the A. U. W. company, has commenced daily measurements of the Santa Ana river at various points from Scully's point to San Bernardino.

In an enthusiastic meeting Republicans of the county gathered at the Grand Opera House and ratified the nomination of Taft and Sherman. J. W. Morrison called the meeting to order. L. L. Shaw presided. Miss Lula Hall sang "The Star Spangled Banner." Clyde Bishop, W. W. Brown, E. T. Langley, District Attorney S. M. Davis, Richard Melrose and Z. B. West were the speakers.

With the G. A. R. in charge of the ceremonies, the old brass cannon secured through N. A. Ulm, National Guards captain, for Santa Ana, was locked to its concrete base in front of the courthouse. F. L. Worden was grand marshal and Frank Eckman his aide in the parade.

The Rev. J. H. Scott of Santa Paula has accepted a call to the pastorate of the Immanuel Baptist church, corner Sixth and French. Marriage licenses: Luther C. Wylie, Santa Ana, and Leona Patterson, Orange. Victor W. Sutton and Winnie M. Clark, both of Orange.

Miss Agnes Martin entertained at a party in honor of two graduates, Grady Clary and Miss Harriet Barclay, of the high school.

James R. Smith, owner of the Main Department store, is preparing for what he says will be the greatest store goods sale Santa Ana ever had.

Within a few days a loafing tent for retired men will be finished at Third and Main streets. O. M. Robbins read a paper on "Poultry" to the Farmers' club meeting at the Leonard home.

INSPIRATIONS

By Berton Bralley

The poet said, "I will make a song,
To stir the souls of the surging throng,
To thrill each heart
With its magic art,
Till the world shall chant my name!"

And the song he made was a splendid thing,
With a mighty sweep and a glorious swing,
But the world said, "Yes,
It is fine, we guess,
Say, how was the baseball game?"

But the poet didn't especially care
For he had met with a maiden fair.
And he wrote, one day,
Just a simple lay
To say that he held her dear;
And the world said, "Gee, that's a pretty thing,
With a joyous lilt and a tender ring!"

And that song was sung
By the old and young
And it echoed around the sphere!
(Copyright, 1922, NEA Service)

Time to Smile

SOMETHING TO WORRY ONE.
The worrier was a born statistician. He delved, during all his spare hours, in figures to scare himself to death with. One day a friend met him and found the worrier in the bluest of blue funks.

"Wassamatter now?" asked the friend.

"Gosh, there's enough the matter!"

"What in particular?"

"Well, I just found that every fourth child born in the world is a Chinese."

"Well! Don't you know we've had just three children at our house?"

Imperial's Trying Time

Imperial Valley Press

There is no denying that these are critical and anxious days for the Imperial valley.

What was done many times in the course of nature during the thousands of years this valley was in the making was done in 1905, when much damage was done and when very much more was threatened by the Colorado's mad invasion of this valley. It is generally understood that what has taken place may occur again. Hence the apprehension at this time when the old river is approaching its maximum of flood.

But just now our hopes are centered in a new engineering project, namely, the Pescadero cut. Soon we shall be able to pass judgment upon the effectiveness of this conception of the men who are responsible for it as a means of defense. The dam that diverts the current of the stream from Bee river and its discharge into Volcano lake and thence into the gulf, is holding well. Practically the whole volume of the Colorado is thus finding a quick outlet through the Pescadero channel into the Gulf of California.

So the force of this great volume of water is not at the dyke erected as barrier against water again finding its way into the Salton sea, as it did seventeen years ago. The Pescadero is giving every promise of quite effectually solving the difficult problem of protection to the valley. It is carrying the tremendous flood of the Colorado, is scouring well and promises to meet the greatest emergency that has been presented for many years because of the unusual snowfall in the mountain region constituting the watershed of the river.

We do not wish to do any premature rejoicing in the triumph of the Pescadero remedy. We only express the hope that is in the hearts of all citizens of the valley. And we wish also to emphasize the obvious fact that there will not be absolute immunity until the Boulder dam is built to equate the flow of the Colorado and incidentally to give all this great Southwest light and power in unlimited quantities. Addressing ourselves to congress we may appropriately say, and for this your petitioners will ever pray.

HEALTH
SOMETHING ABOUT
HOW TO KEEP WELL

OPEN PORES

One of the healthiest things you can do in the summer is to sweat profusely.

People hardly realize what a great work perspiring does for the human system, and the number of ills prevented by the continuous working of the human body's two and a half million sweat glands.

You normally perspire continuously, both in summer and winter. Except in warm weather, however, the moisture is exhaled from the body in the form of vapor and hence is invisible.

The chief purpose of sweating is to regulate the body's temperature, though it also serves as a sub-sweating system for the disposal of poisonous waste matter which is not taken care of by the kidneys. When the sweat glands are not functioning properly, there is a greater strain on the kidneys, a rise in temperature to fever, heat and less resistance to disease. Likewise, when the bowels are not working properly, the sweat glands are called upon to do overtime work and sickness may result.

To keep the sweat glands working well, take plenty of baths. Warm baths are especially good to keep the pores open and the sweat glands working. One must be careful, after warm baths, however, to avoid catching cold.

Light, loose clothing should be worn in hot weather, so as to give the sweat glands full play.

Drink a lot of water, too. In warm weather it is almost impossible to drink too much water. Ten or 12 glasses a day are not too many. The water should be cool, but not iced, and some of it should be drunk with the meals, though not to wash down half-chewed food.

Odd and Interesting

Shoes are now being made of fish and snake skins.

Oil pipe lines in America are long enough to circle the earth at the equator.

An electric fan of light voltage capacity has been designed for use in automobiles and motorboats.

"Manna" milk, from the soya bean, is now being made in Vienna at one-sixth the cost of fresh milk.

India is equal in area to all of Europe with the exception of Russia.

Scripture

Be not deceived; God is not mocked: for whatsoever a man soweth, that shall he also reap. For he that soweth unto his own flesh, shall of the flesh reap corruption; but he that soweth unto the Spirit shall of the Spirit reap eternal life.—Galatians 6:7-8.

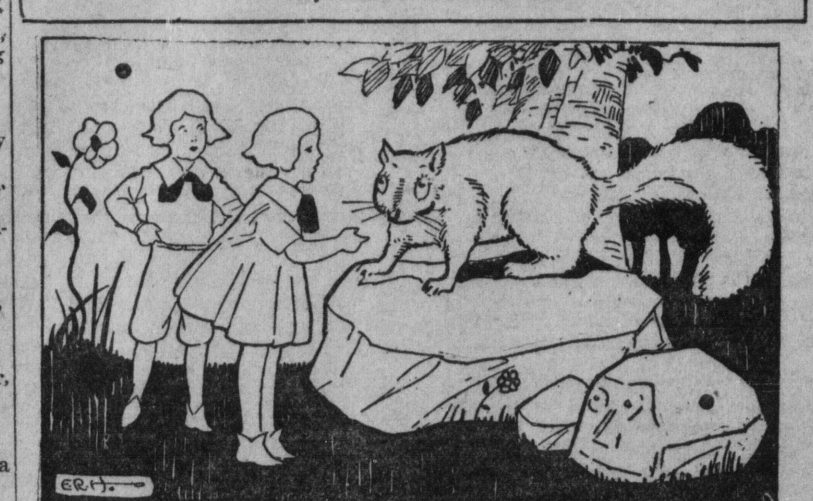

Today in History

1846—Julian Hawthorne, author, born.
1898—Santiago, Cuba, forts bombarded.
1915—Austrians recovered Lemberg.

ADVENTURES OF THE TWINS

Squirrel's Hunch is Vain

By Olive Roberts Barton

"What's all the trouble about?" he asked.

The Twins hunted everywhere for Mr. Peerbout, the lost Man-in-the-Moon.

They were asking the wood-folk when Scramble Squirrel came bounding along and was just about to shoo them up to his own front door when he stopped to listen.

"What's all about?" he asked. And so the whole thing had to be explained over again.

"Say," said Scramble, "I've got an idea. 'What does Mr. Peerbout look like?'"

Nancy told him. "And does he keep looking for something all the time?" asked Scramble excitedly.

"Deed he does," remarked Nick. "Why, Mr. Squirrel, did you see him?"

"I'm not sure," declared Scramble mysteriously. "I should think he'd need to look so hard. It's right under his nose." (To Be Continued.)

(Copyright, 1922, NEA Service.)
